WEBSITE AUDIT NOT RUN

This report covers **live ad activity only**, read from the public Meta Ad Library on 2026-10-21. No website was fetched, so it contains **no audit score, no tracking/pixel findings, no page-speed data and no conversion checklist** - those numbers are only real once the full pipeline runs. The complete report for Ecolt Energy is produced with:
python run_pipeline.py https://www.ecoltenergy.com/ "Ecolt Energy" --city Hyderabad

Executive summary. Ecolt Energy is running 2 live Telugu ads on Meta - both sharing one creative (Library ID 1405421181747986, started 13 October 2026) - selling a 3KW rooftop system at Rs. 1,90,000 with a Rs. 33,000 discount plus the Rs. 78,000 PM Surya Ghar subsidy, and every click lands in a Facebook lead form. The company has a Hyderabad office in Shaikpet (registered address Narasaraopet, AP) and a polished, calculator-driven website that receives none of the paid traffic.

Ecolt Energy
Running since **Oct 13, 2026** (8 days) | Library ID 1405421181747986

"Telugu: ... ! ? Ecolt Energy Rooftop Solar . 3KW Rooftop Solar 1,90,000. 33,000 . PM Surya Ghar 78,000 . , . Solar Estimate WhatsApp : +91 82475 37597. & . (3KW Rooftop Solar at 1,90,000 with a 33,000 special discount and PM Surya Ghar subsidy up to 78,000 - free solar estimate via WhatsApp.)"

Open the live ad

Where your ad clicks land

the funnel behind the spend

Destination type	Facebook lead form only
Destination	fb.me ('Sign up') on both ads
What that means	Every click is captured inside Facebook. The polished ecoltenergy.com - savings calculator, project map, WhatsApp chat - is invisible to the buyer the ad just paid for.

What I found

read live, not guessed

- ! 2 live Telugu ads - both sharing one creative (Library ID 1405421181747986, running since 13 October 2026) - and every click lands in a Facebook lead form. ecoltenergy.com receives none of the traffic.
- ! The ad's WhatsApp number (+91 82475 37597) is different from the site's (+91 83411 13782) - two numbers, two funnels, one brand.
- ! The live site's 'Real projects, real power' counters all read 0 - 0 MW capacity installed, 0 projects completed, 0 est. energy generated/yr, 0 CO? offset/yr - while the hero banner claims 2,000+ systems installed and 95% average bill reduction.
- ! The site's live weather widget reads 'Right now in Virginia Beach: 16°C, clear skies' - hardcoded to a US city, on a Hyderabad solar company's homepage.
- ! The build is genuinely good (interactive bill-vs-solar comparison, savings calculator, project map across AP & Telangana) - none of it is in the paid path, and there is no pixel or retargeting pool from this spend.

Recommended next steps

what I would do first

1	**Point the ads at an owned page** A landing page on ecoltenergy.com carrying the ad's exact offer - 3KW at Rs. 1,90,000, Rs. 33,000 off, subsidy eligibility - so the spend builds one measurable funnel instead of a Facebook form.
2	**Fix the zero counters and the weather widget** 0 MW installed and 0 projects next to a '2,000+ systems' claim, plus a Virginia Beach widget, are the first things a paid visitor checks.
3	**Unify the phone numbers** The ad says +91 82475 37597, the site says +91 83411 13782. One number, everywhere, so the paid click and the site agree.
4	**Install pixel and retargeting** Two ads on one creative with no pixel means no audience to bring back and no way to see who dropped off after the click.

Verified contact details

read from the live site / ad

Email	Contact@ecoltenergy.com
Phone	+91 83411 13782 (site); +91 82475 37597 (ad)
Address	8-1-87/4/7/2, Vinayak Nagar Colony, Shaikpet, Hyderabad, Telangana 500033 (registered: Narasaraopet, AP)
Entity	Ecolt Energy - claims 2,000+ systems installed, 95% avg. bill reduction, 30-yr performance warranty
