LIVE AD ACTIVITY

Truzon Solar

Hyderabad · https://www.truzonsolar.com · Ad data pulled 2026-10-18

WEBSITE AUDIT NOT RUN

This report covers **live ad activity only**, read from the public Meta Ad Library on 2026-10-18. No website was fetched, so it contains **no audit score, no tracking/pixel findings, no page-speed data and no conversion checklist** - those numbers are only real once the full pipeline runs. The complete report for Truzon Solar is produced with:
python run_pipeline.py https://www.truzonsolar.com "Truzon Solar" --city Hyderabad

Executive summary. Truzon Solar has been advertising on Meta continuously since May 2026 - the longest-running programme in this Hyderabad set - with 3 live ads across 2 creatives (7 ads share one creative, 6 share another). Every creative is Hindi or Marathi, and every CTA drops the click into a Facebook lead form.

3	-	Facebook lead form	Meta

Where your ad clicks land

the funnel behind the spend

Destination type	Facebook lead form
Destination	fb.me ('Call Now +91 9030032222' / 'Book Now')

What that means	The click never reaches truzonsolar.com. You cannot retarget the people who clicked and did not call, you cannot test a landing page, and the phone number in the button is the only thing connecting the ad to your business.

What I found

read live, not guessed

- ! Every live creative is Hindi or Marathi. In Hyderabad the strongest solar ads run in Telugu to the same homeowners - your own head office is here, but your ads are not speaking the local language.
- ! 7 ads share one creative and 6 share another. You are buying reach on two ideas while competitors test new angles weekly.
- ! The 'Call Now' button sends people into a Facebook lead form, not your own quote page - so none of your residential, commercial, industrial and ground-mounted service pages ever get seen by paid traffic.
- ! You have the longest-running ad programme in this market (since May 2026) - which means the tracking and retargeting gap has been costing you the whole time.

Recommended next steps

what I would do first

1	**Run Telugu creative**	Translate the winning 'solar is no longer difficult' message into Telugu and test it against the Hindi and Marathi versions. This is the cheapest lift available in this market.
2	**Send the click to your own page**	Move the CTA from the Facebook form to a Hyderabad landing page with a quote form, so the traffic becomes an asset you own and can retarget.
3	**Break the creative deadlock**	Test 3-4 new angles - subsidy math, EMI vs bill, Dussehra-style offer, commercial rooftop - instead of spending the whole budget on two creatives.
4	**Track the calls**	Put call tracking on the 9030032222 button so you know which creative actually produces booked site visits.

Verified contact details

read from the live site / ad
