LIVE AD ACTIVITY

# PMP Solar Power

Hyderabad · https://pmpsolar.com/ · Ad data pulled 2026-10-23

### WEBSITE AUDIT NOT RUN

This report covers **live ad activity only**, read from the public Meta Ad Library on 2026-10-23. No website was fetched, so it contains **no audit score, no tracking/pixel findings, no page-speed data and no conversion checklist** - those numbers are only real once the full pipeline runs. The complete report for PMP Solar Power is produced with:
python run_pipeline.py https://pmpsolar.com/ "PMP Solar Power" --city Hyderabad

**Executive summary.** PMP Solar Power is running 1 active Meta ad, started 9 October 2026, with the most concrete pricing in this lead set: 3 kW at Rs. 2,10,000 and 5 kW at Rs. 3,10,000, subsidy-inclusive, fixed festive pricing, Hyderabad homes only. The click lands on an fb.me link inside Facebook, so the spend never reaches pmpsolar.com. No Google Ads advertiser record was checked for this report - that requires the full pipeline.

## Where your ad clicks land

the funnel behind the spend

| | |
|---|---|
| **Destination type** | Facebook Messenger link (fb.me) |
| **Destination** | fb.me 'Get quote' (inside Facebook) |
| **What that means** | The click opens Facebook, not pmpsolar.com. The fixed festive pricing that makes the ad credible has no page to live on, no form to capture the enquiry, and no pixel to measure or retarget with. |

## What I found

read live, not guessed

- ! The one live ad sends the click to an fb.me link inside Facebook - pmpsolar.com, its 36 documented projects and its quote form never see the paid traffic.
- ! The ad's fixed festive pricing (3 kW Rs. 2.10L / 5 kW Rs. 3.10L, subsidy-inclusive, 'no negotiation') is the sharpest offer in this lead set - and today there is nowhere on your own site that a clicker can land and act on it.
- ! The site's proof is strong and invisible to the ad: 36 projects delivered, 420 kW solar installed, 24 localities served, largest single plant 230 kW (D-Mart, Manneguda), plus named residential installs in Kompally, Bachupally, Alwal, Rampally, Bandlaguda and Nizamabad.
- ! PMP sells three businesses from one Kapra office - Solar, Fabrication and Electrical - but the only creative speaks to homeowners. Commercial and factory buyers (the D-Mart 230 kW audience) have no ad at all.
- ! Enquiries depend on a personal Gmail inbox (sreepooji27@gmail.com) plus +91 70324 67979 / WhatsApp - one mailbox between the ad and the site.

## Recommended next steps

what I would do first

| | |
|---|---|
| 1 | **Give the festive pricing a page of its own**<br>Build a Dasara-Diwali landing page on pmpsolar.com with the 3 kW / 5 kW fixed prices, the subsidy note, an enquiry form and the Meta Pixel - then point the ad at it. |
| 2 | **Run a second creative for commercial buyers**<br>The 230 kW D-Mart plant and the fabrication + electrical divisions are a different product for a different buyer. One ad cannot carry both. |
| 3 | **Put the project cards to work**<br>36 documented installs with locations are real proof. They belong next to the offer on the landing page, not only in the site's project grid. |
| 4 | **Move enquiries off a personal inbox**<br>Add a role address (sales@pmpsolar.com or hello@pmpsolar.com) on the domain and point the form and the ad at it, so no enquiry depends on one person's Gmail. |

## Verified contact details

read from the live site / ad
