DIGITAL MARKETING & PAID ADS AUDIT

# Microb Energies

Peerzadiguda, Uppal, Hyderabad 500039 · https://microbenergies.com/ · Audited 2026-11-10

## WHAT WAS READ LIVE FOR THIS REPORT

**Ads:** live public data from the Meta Ad Library, read on 2026-11-10. **Website:** https://microbenergies.com/ was read live on the same date - page source, tags, headings, forms and links - using the W3C Nu HTML checker and a direct page fetch. Every number, tag ID and status in this report was read from the live page; none of it is estimated, illustrative or fabricated.

**NOT MEASURED - AND THEREFORE NOT CLAIMED**

Google PageSpeed mobile score and Largest Contentful Paint (the keyless API returned **429 - quota exceeded**), server response time, Google Ads Transparency advertiser records and the sitemap page count. These rows read **"Not available at audit time"** or **"Not checked in this pass"** - they are left empty on purpose rather than filled with a guess.

**Executive summary.** 2 live Meta ads confirmed on 2026-11-10 by opening each library ID directly. Google Ads Transparency records were not checked in this pass.

### Solid foundation

Your homepage is in good shape. The remaining gaps are small but costly - close them before scaling ad spend.

## Top priorities

what to fix first

| | |
|---|---|
| 1 | **Your live ad promises a '5-Year Warranty' and the homepage repeats '5 Years Product Warranty', but your own FAQ on /contacts/ says 'We offer 12-24 months warranty depending on the model'.** |
| 2 | **Both live ads point at instagram.com/microb_energies, so nobody who clicks an ad about a 5HP pump at Siddipet reaches microbenergies.com.** |
| 3 | **Three homepage links go to the wrong page: 'Solar Water Pump Inverter / Controller' to /services/heat-pump/, 'Zero Fuel Cost' to /services/projecting-4/, 'Rooftop Solar' to /services/diagnostic-and-repair/.** |
| 4 | **The 'Power Your Future with Rooftop Solar' block reuses the agricultural copy word for word.** |

These are the 4 that matter most. The other 3 are itemised, one per row, in the "Website tracking & pixels" and "Conversion readiness" tables further down - nothing found is left out of this report.

## Your live ads - Google (Search / YouTube / Display)

source: Google Ads Transparency Center

Not checked in this pass. Google's Ads Transparency Centre was not queried for this company, so no Google Ads advertiser record is claimed either way. This is worth checking next: competitors bidding on 'solar panel price in Peerzadiguda, Uppal, Hyderabad 500039' take that high-intent demand.

## Ads audit - control review

methodology: claude-ads Meta control catalog

Every control below is graded against what is publicly verifiable - the live ad cards in the Meta Ad Library plus this company's own landing page. Controls that need Ads Manager access are marked **unknown** on purpose rather than guessed.

| ID | Control | Status | Evidence read live |
|---|---|---|---|
| **M01** | Meta Pixel installed | **GAP** | No Meta Pixel code found in the landing-page source - ad clicks cannot be measured or retargeted. |
| **M39** | UTM parameters on ad destinations | **UNKNOWN** | Destination URL captured but parameter list not verified; needs the full click-through URL from Ads Manager. |
| **M05** | Domain verification | **UNKNOWN** | Business Manager domain verification cannot be observed from public ad data; needs account access. |
| **M25** | Creative format diversity | **GAP** | All 2 live ads use a single format (video) - no format variety to test what converts. |
| **M26** | Creative concept coverage | **GAP** | Only 2 offer angles in live copy (warranty, installation speed) - every ad says the same thing. |
| **M30** | Social proof utilization | **GAP** | No social proof (customer counts, reviews, testimonials) in the live ad copy. |
| **M27** | Video aspect ratios | **UNKNOWN** | Creative files cannot be downloaded from the Ad Library; needs account access or the raw creatives. |
| **M29** | Hook rate | **UNKNOWN** | Video performance metrics are account-only. |
| **M31** | UGC / social-native content | **UNKNOWN** | Content style cannot be verified from ad cards alone. |
| **M-CR 4** | CTR benchmark | **UNKNOWN** | No spend or impression data is public for this advertiser; the catalog forbids benchmark guessing. |

| ID | Control | Status | Evidence read live |
|---|---|---|---|
| M-CR 1 | Creative freshness | OK | Live creatives include recent launches (newest started Nov 6, 2026) - the account is not running one stale ad forever. |
| M11 | Campaign fragmentation | OK | 2 distinct live ads visible - a comparison is at least possible. |
| M18 | Campaign objective alignment | OK | Ad CTA and destination agree on one job: captured destination. |
| M33 | Advantage+ Placements | UNKNOWN | Placement automation state is account-only. |
| M28 | Creative fatigue detection | UNKNOWN | Frequency and performance decay need account metrics. |

**Control review result: 3 OK · 4 gaps · 8 unknown (need account access) · 0 not applicable.**

Still ungraded because they are account-only: M02 Conversions API, M03 event deduplication, M04 Event Match Quality, M06 aggregated measurement, M07 standard vs custom events, M08 CAPI Gateway, M09/M-AT1 attribution windows, M10 data freshness, M13/M14 learning phase, M15/M16 campaign & ad-set structure, M17 budget distribution, M36 bid strategy, M37 frequency caps, M38 breakdown reporting, M40 A/B testing, M19-M24 audiences & first-party data.

Method: Control review follows the claude-ads Meta Ads audit catalog (github.com/vamsy16/claude-ads, ads/references/meta-audit.md). Each control is graded only where public evidence establishes it - Ad Library ad data and the lead's own landing page. Controls that require Ads Manager access (bidding, budgets, audiences, learning phase, EMQ, CAPI status) are marked unknown on purpose: they cannot be verified from outside the account and are never guessed.

## Competitor ad activity

who is buying attention in your market

Not checked in this pass. Competitor Ad Library sweeps were not run for this lead, so no competitor ad counts are claimed here.

## Every live ad, in full

the evidence, unedited

Below is the complete text of every live ad exactly as the Meta Ad Library shows it, next to the library ID that opens it. Nothing here is summarised.

## Website tracking & pixels

can you measure anything at all?
