LIVE AD ACTIVITY

Ellvin Energy

Hyderabad · https://ellvinenergy.com/ · Ad data pulled 2026-10-21

WEBSITE AUDIT NOT RUN

This report covers **live ad activity only**, read from the public Meta Ad Library on 2026-10-21. No website was fetched, so it contains **no audit score, no tracking/pixel findings, no page-speed data and no conversion checklist** - those numbers are only real once the full pipeline runs. The complete report for Ellvin Energy is produced with:
python run_pipeline.py https://ellvinenergy.com/ "Ellvin Energy" --city Hyderabad

Executive summary. Ellvin Energy is running 6 live ads on Meta - all six sharing one Telugu creative (Library ID 1688280062277703, started 12 August 2026) - and every one of them sends the click into a Facebook lead form. The company was incorporated only in August 2025 (CIN U35105AP2025PTC120835), is headquartered in Tadepalli, Andhra Pradesh, and is advertising into Telangana in Telugu. No owned page receives any of this traffic.

Ellvin energy
Running since **Aug 12, 2026** (70 days) | Library ID 1688280062277703
"Telugu: . Elvin Energy 3KW . . #GoGreen #SolarPower #ElvinEnergy #ElvinSolar #GoGreen #SolarBenefits #PMSuryaGhar. (Subsidy discount for the first 1 crore people; a 3KW solar plant at zero cost with Elvin Energy.)"
Open the live ad

Where your ad clicks land

the funnel behind the spend

Destination type	Facebook lead form only
Destination	fb.me ('Book now') on all 6 ads
What that means	Every lead is captured inside Facebook. There is no pixel on ellvinenergy.com, no retargeting pool, no landing page to test and no way to see what happens after the click.

What I found

read live, not guessed

! 6 live ads - and all 6 share one Telugu creative (Library ID 1688280062277703, running since 12 August 2026). One idea, six versions, no second angle and no retargeting creative.

- ! Every click lands in a Facebook lead form - the paid traffic never reaches ellvinenergy.com. No pixel, no retargeting pool, no page you can test.
- ! The company was incorporated only in August 2025 (CIN U35105AP2025PTC120835, directors Vijaya Bhaskar and Nirmala Gangavarapu) - a one-year-old installer buying Telugu solar leads in Telangana.
- ! The creative promises a '3KW solar plant at zero cost' to 'the first 1 crore people' - eligibility language that needs a real landing page behind it, not just a form.
- ! Headquartered in Tadepalli, Guntur (Andhra Pradesh), advertising into Telangana - no Hyderabad presence on the site, no local proof for a Telangana buyer.

Recommended next steps

what I would do first

1	**Build an owned Telugu landing page** Put the 'zero-cost 3KW' eligibility promise on a page you control - eligibility check, subsidy maths, quote form - and point all 6 ads at it.
2	**Install the pixel and start retargeting** Six ads buying leads with no pixel on your site means no audience to re-market to. The Meta pixel plus a lead-form integration turns one click into a retargetable contact.
3	**Test a second creative angle** One creative cannot tell you which message works. Test a subsidy-focused and an EMI-focused Telugu version against each other.
4	**Add Telangana-local proof** Named local projects and a Telangana service area turn a cross-border advertiser into a local option for the homeowner reading the ad.
