LIVE AD ACTIVITY

Kapil Power & Infra

Hyderabad · https://kapilpower.com/ · Ad data pulled 2026-10-21

WEBSITE AUDIT NOT RUN

This report covers **live ad activity only**, read from the public Meta Ad Library on 2026-10-21. No website was fetched, so it contains **no audit score, no tracking/pixel findings, no page-speed data and no conversion checklist** - those numbers are only real once the full pipeline runs. The complete report for Kapil Power & Infra is produced with:
python run_pipeline.py https://kapilpower.com/ "Kapil Power & Infra" --city Hyderabad

Executive summary. Kapil Power & Infra is running 2 active Telugu ads on Meta - one since 14 September 2026 (on-grid solar systems) and one since 6 October 2026 (reduce your bill by 90%, 1000+ happy customers) - and both send the click into a Facebook lead form. Kapil Power is the solar arm of the Kapil Group, a Hyderabad household name since 1981, with 25+ years in solar, TGREDCO empanelment (TSRE180167) and offices in Kapil Towers, Financial District. None of the spend reaches kapilpower.com.

Kapil Power & Infra P Ltd
Running since **Oct 6, 2026** (15 days) | Library ID 2274643036665215

"Stop Paying High Current Bills! Kapil Power . Zero Electricity Bills (reduce your current bill up to 90%), Government Subsidy (PM Surya Ghar), Premium Panels (25 years warranty), Expert Installation (20+ years experience), Trusted Brand (1000+ happy customers)."

Open the live ad

Where your ad clicks land

the funnel behind the spend

Destination type	Facebook lead form
Destination	fb.me ('See details') on both ads
What that means	Both ads land inside Facebook. For a group company with a full EPC website - rooftop, ground-mounted, street lighting, solar fencing, O&M - the paid click never sees any of it.

What I found

read live, not guessed

- ! 2 live Telugu ads (14 Sep and 6 Oct 2026) and every click lands in a Facebook lead form - the paid traffic never reaches kapilpower.com.
- ! This is the Kapil Group - a Hyderabad household name since 1981 - with 25+ years in solar, TGREDCO empanelment (TSRE180167) and a 2004-incorporated company. Heavyweight credibility, all of it invisible to the ad click.
- ! The site is a full EPC site: on-grid and off-grid, rooftop, ground-mounted, street lighting, solar fencing and O&M, with DISCOM and MNRE paperwork handled - real depth that no paid traffic ever sees.
- ! No owned landing page for the offers being advertised, no pixel on the site, no retargeting pool built from this spend.
- ! The '1000+ happy customers' claim in the ad has no matching proof page on the site - testimonials exist, but nothing a Telugu ad click can verify in one step.

Recommended next steps

what I would do first

1	**Build a Hyderabad residential landing page** Point both Telugu ads at one page on kapilpower.com: PM Surya Ghar subsidy, 90% bill reduction, the 1000+ customer proof, and the free site visit - so the Kapil Group name works on the click.
2	**Install the pixel and capture retargeting** Meta lead forms give you a name and number. The pixel plus Conversions API on your own site gives you the audience to re-market to at a fraction of the cost.
3	**Test a second creative angle** Two ads is a start. Test a subsidy-focused and an EMI-focused Telugu version against the bill-reduction message.
4	**Put the group's track record in front of the click** 25+ years, 1981, TGREDCO empanelment - trust assets most local competitors cannot show, currently invisible on the paid path.
