LIVE AD ACTIVITY

# Junna Solar Systems

Hyderabad · https://www.junnasolar.com/ · Ad data pulled 2026-10-20

### WEBSITE AUDIT NOT RUN

This report covers **live ad activity only**, read from the public Meta Ad Library on 2026-10-20. No website was fetched, so it contains **no audit score, no tracking/pixel findings, no page-speed data and no conversion checklist** - those numbers are only real once the full pipeline runs. The complete report for Junna Solar Systems is produced with:
python run_pipeline.py https://www.junnasolar.com/ "Junna Solar Systems" --city Hyderabad

**Executive summary.** No active Meta ads were found for Junna Solar Systems (Ad Library probe 'Junna Solar', 2026-10-20). Meanwhile five Hyderabad installers - Evergrid Energy (Library IDs 1642242114211409 and 1079793338257084), Solox Energies (2023601181805342), Truzon Solar (1522258176260844), Punarvi Energies (1122725223617884 and 994804120334409) and Twilight Solar (3823689667771361 and 28023952863910719) - are all live this month buying the same homeowner with Rs. 78,000-subsidy offers. Junna's 13-year rooftop track record is not in front of any paid traffic.

| LIVE ADS RUNNING | LONGEST-RUNNING AD | WHERE CLICKS LAND | SOURCE |

## Your live ads - Meta (Facebook / Instagram)

source: Meta Ad Library

No active Meta ads were found for this company. Competitors in your city are buying this attention instead - which is itself the finding worth acting on.

## Where your ad clicks land

the funnel behind the spend

| | |
|---|---|
| **Destination type** | Own website form (JavaScript app) |
| **Destination** | Free-consultation form on junnasolar.com + phone |
| **What that means** | The site is a JavaScript application - the homepage renders almost nothing without JS, and the floating WhatsApp button in the served HTML points at wa.me/undefined, a broken deep link. Enquiries that do arrive come by phone; nothing paid drives traffic to the site at all. |

## What I found

read live, not guessed

- ! No active Meta ads under your name - five Hyderabad installers (Evergrid, Solox, Truzon, Punarvi, Twilight) are live this month buying the same homeowner with the same Rs. 78,000-subsidy message.
- ! Incorporated in December 2012 and now a public limited company (CIN U40106TG2012PLC084777), TGREDCO-empanelled (TSRE180043) and a registered PM Surya Ghar vendor for Telangana North - 13+ years of rooftop and water-pump work, HQ in Kukatpally.
- ! The live site is a JavaScript app: the homepage renders almost nothing without JavaScript, so the first thing a paid click or a search visitor sees is a loader.
- ! The floating WhatsApp button in the served HTML points at wa.me/undefined - a broken deep link on the exact channel a solar buyer is most likely to tap.
- ! You are hiring across sales and project roles (project managers, sales engineers, project engineers) - clear growth mode, with zero paid acquisition behind it.

## Recommended next steps

what I would do first

| | |
|---|---|
| 1 | **Fix the broken WhatsApp link**<br>The floating button's wa.me target is undefined in the served HTML. That is a lost-lead path on the channel your customers actually use. |
| 2 | **Server-render the homepage**<br>Make the key content (what you do, where you operate, how to enquire) visible without JavaScript, so search and paid traffic see it instantly. |
| 3 | **Test paid lead gen in Hyderabad**<br>A small Meta budget on one residential offer, Kukatpally/Kompally/Secunderabad targeting, would put 13 years of rooftop work in front of buyers who currently only see competitor ads. |
| 4 | **Run Telugu creative**<br>Telugu is the language of the Telangana homeowner - and it is what your competitors' creatives already speak. |

## Verified contact details

read from the live site / ad
