LIVE AD ACTIVITY

Mamindla Energy Solutions

Hyderabad · https://www.m-e-solutions.co.in/ · Ad data pulled 2026-10-20

WEBSITE AUDIT NOT RUN

This report covers **live ad activity only**, read from the public Meta Ad Library on 2026-10-20. No website was fetched, so it contains **no audit score, no tracking/pixel findings, no page-speed data and no conversion checklist** - those numbers are only real once the full pipeline runs. The complete report for Mamindla Energy Solutions is produced with: python run_pipeline.py https://www.m-e-solutions.co.in/ "Mamindla Energy Solutions" --city Hyderabad

Executive summary. No active Meta ads were found for Mamindla Energy Solutions (Ad Library probe 'Mamindla Energy Solutions', 2026-10-20). Meanwhile five Hyderabad installers - Evergrid Energy (Library IDs 1642242114211409 and 1079793338257084), Solox Energies (2023601181805342), Truzon Solar (1522258176260844), Punarvi Energies (1122725223617884 and 994804120334409) and Twilight Solar (3823689667771361 and 28023952863910719) - are all live this month buying the same homeowner with Rs. 78,000-subsidy offers. Mamindla's govt-empanelled credentials are not in front of any paid traffic.

0	-	Own website form + phone	Meta
LIVE ADS RUNNING	LONGEST-RUNNING AD	WHERE CLICKS LAND	SOURCE

Your live ads - Meta (Facebook / Instagram)

source: Meta Ad Library

No active Meta ads were found for this company. Competitors in your city are buying this attention instead - which is itself the finding worth acting on.

Where your ad clicks land

the funnel behind the spend

Destination type	Own website form + phone
Destination	Free-quote form on the homepage + one phone number
What that means	The site is built to convert: quote form, savings calculator, named case studies. The problem is that nothing paid drives into it, so traffic depends entirely on someone already searching.

What I found

read live, not guessed

! No active Meta ads under your name - five Hyderabad installers (Evergrid, Solox, Truzon, Punarvi, Twilight) are live this month buying the same homeowner with the same Rs. 78,000-subsidy message.

- ! The site claims 100+ installations, 10+ MW delivered and 500+ happy customers, with an interactive savings calculator (bill + roof size in, system size, subsidy and payback out) and three named case studies: 8 kW residential in Kondapur, 25 kW commercial at a Hanamkonda school and 50 kW industrial in LB Nagar. Trust material, already built.
- ! Govt-empanelled vendor positioning, Tier-1 panel claims (Waaree, TATA, Adani) and full PM Surya Ghar paperwork handling - exactly the proof a homeowner wants after seeing three competitor ads.
- ! The Hyderabad branch sits in Madhapur, right in the commercial heart of the city - but there is no Hyderabad-specific paid targeting anywhere.
- ! Everything on the site is in English. Telugu creative is the language of the Telangana homeowner your competitors are buying.

Recommended next steps

what I would do first

1	**Test paid lead gen in Hyderabad** A small Meta budget on one residential offer, targeted around the Madhapur/Hitech City side of the city, would sit right next to your branch office.
2	**Turn the calculator into a landing page hook** The savings calculator is already the best asset on the site. Put it at the top of a dedicated paid landing page.
3	**Run Telugu creative** Test a Telugu version of the Rs. 78,000-subsidy offer against English.
4	**Use the case studies as ad proof** The Kondapur, Hanamkonda and LB Nagar projects are named, specific and local - most competitor ads cannot show that.

Verified contact details

read from the live site / ad
