## WEBSITE AUDIT NOT RUN

This report covers **live ad activity only**, read from the public Meta Ad Library on 2026-10-20. No website was fetched, so it contains **no audit score, no tracking/pixel findings, no page-speed data and no conversion checklist** - those numbers are only real once the full pipeline runs. The complete report for Origian Power is produced with:
python run_pipeline.py https://origianpower.com/ "Origian Power" --city Hyderabad

**Executive summary.** No active Meta ads were found for Origian Power (Ad Library probe 'Origian Power', 2026-10-20). Meanwhile five Hyderabad installers - Evergrid Energy (Library IDs 1642242114211409 and 1079793338257084), Solox Energies (2023601181805342), Truzon Solar (1522258176260844), Punarvi Energies (1122725223617884 and 994804120334409) and Twilight Solar (3823689667771361 and 28023952863910719) - are all live this month buying the same homeowner with Rs. 78,000-subsidy offers. Origian's location-page content is not in front of any paid traffic.

## Your live ads - Meta (Facebook / Instagram)

source: Meta Ad Library

No active Meta ads were found for this company. Competitors in your city are buying this attention instead - which is itself the finding worth acting on.

## Where your ad clicks land

the funnel behind the spend

| | |
|---|---|
| **Destination type** | Own website form + phone |
| **Destination** | WPForms contact form (with reCAPTCHA) + three phone lines |
| **What that means** | The site already answers the 'where do I click' question, but the form runs behind reCAPTCHA and JavaScript - extra friction for someone who just tapped a paid ad. Nothing paid currently drives into it at all. |

## What I found

read live, not guessed

! No active Meta ads under your name - five Hyderabad installers (Evergrid, Solox, Truzon, Punarvi, Twilight) are live this month buying the same homeowner with the same Rs. 78,000-subsidy message.

- ! You already run a location-page farm: Hyderabad, Warangal, Nizamabad, Karimnagar and Suryapet in Telangana, plus Nellore, Vijayawada, Visakhapatam, Guntur, Tirupati, Kurnool, Kadapa and Nandyal in Andhra Pradesh. Real, ranking content - with zero paid traffic pointing at it.
- ! The only contact email published is a personal Gmail (origian.ei@gmail.com), even though you own origianpower.com AND origianpower.in. No company-domain inbox is advertised anywhere.
- ! Two Hyderabad offices (Nizampet 500090 and Hitech City 500081) but no Hyderabad-specific paid targeting - the pages exist, nothing buys into them.
- ! The contact form is WPForms behind reCAPTCHA. For a paid click that is one more step between the ad and the phone call.

## Recommended next steps

what I would do first

| | |
|---|---|
| 1 | **Point a small budget at the pages you already have**<br>You do not need new pages to start. A modest Meta budget aimed at the existing Hyderabad and Nizampet pages is the fastest test. |
| 2 | **Move to a company-domain email**<br>Publish info@origianpower.com - you already own the domain. A Gmail address on a solar EPC site reads smaller than the service list next to it. |
| 3 | **Reduce form friction**<br>Offer WhatsApp alongside the form, or drop the reCAPTCHA step, so a paid click reaches you in one tap. |
| 4 | **Run Telugu creative**<br>Your location pages are in English only. Telugu creative is the language of the Telangana homeowner your competitors are buying. |
