DIGITAL MARKETING & PAID ADS AUDIT

Aadithya Solar Energies

Gandipet, Hyderabad 500086 · https://aadithyasolarenergies.com/ · Audited 2026-11-10

WHAT WAS READ LIVE FOR THIS REPORT

Ads: live public data from the Meta Ad Library, read on 2026-11-10. **Website:** https://aadithyasolarenergies.com/ was read live on the same date - page source, tags, headings, forms and links - using the W3C Nu HTML checker and a direct page fetch. Every number, tag ID and status in this report was read from the live page; none of it is estimated, illustrative or fabricated.

NOT MEASURED - AND THEREFORE NOT CLAIMED

Google PageSpeed mobile score and Largest Contentful Paint (the keyless API returned **429 - quota exceeded**), server response time, Google Ads Transparency advertiser records and the sitemap page count. These rows read **"Not available at audit time"** or **"Not checked in this pass"** - they are left empty on purpose rather than filled with a guess.

Executive summary. 1 live Meta ad confirmed on 2026-11-10 by opening each library ID directly. Google Ads Transparency records were not checked in this pass.

AUDIT SCORE (LOWER IS BETTER)	ISSUES FOUND	TRACKING GAPS	LIVE ADS RUNNING

33
ISSUES / 100

Clear quick wins available

A handful of gaps are holding back your conversion rate. Fixing them is fast and low-cost.

Top priorities

what to fix first

1	**Your live ad's 'Book now' button goes to http://fb.me/ - a Facebook link shortener - not to aadithyasolarenergies.com, so the spend never reaches the site you are paying to advertise.**
2	**With no Meta Pixel, no GA4 and no Google Ads tag anywhere in the site's <head>, nothing on aadithyasolarenergies.com can record who clicked, so even a visitor who does arrive cannot be counted or retargeted.** **Fix:** Install the free Meta Pixel - without it you cannot retarget site visitors or measure which ads produce enquiries.
3	**The <head> still carries the theme's default meta description, 'Solar Energy WordPress Theme' - the text Google shows under your listing has never been written for your business.** **Fix:** Write a 150-character meta description with your city + service keyword to lift Google click-through.
4	**The theme is unfinished: the header prints the placeholder phone (229) 555-0109, the email link is labelled 'example@email.com', the service and 'About' links point at the theme demo on themexriver.com, and the footer shows two different addresses.**

These are the 4 that matter most. The other 9 are itemised, one per row, in the "Website tracking & pixels" and "Conversion readiness" tables further down - nothing found is left out of this report.

Your live ads - Meta (Facebook / Instagram)

source: Meta Ad Library

1 active ad results found. Your Meta presence is live - the creatives below are publicly visible in the Ad Library right now.

Aadithya Solar Energies
Running since **Sep 11, 2026** (60 days) | Library ID 1596852225147259

"Video ad, copy in Telugu script, which this report's fonts cannot render - given below by meaning. Latin-script lines are verbatim from the card; open the live ad to read the original. Verbatim: "Rs.78,000 Solar Subsidy", "Rs.78,000 Solar!", "Power Plant!", "Rooftop Solar Installation", "Solar Power", "Savings", "Aadithya Solar Energies", "Call: 94910 32828". Translated: register your details for solar subsidy information up to Rs.78,000; your own power plant on your own roof; check on electricity bills that rise every month; under the PM Surya Ghar Muft Bijli Yojana eligible households can get up to Rs.78,000 subsidy, with help through the process. CTA on the card: 'Book now'"

Open the live ad

Your live ads - Google (Search / YouTube / Display)

source: Google Ads Transparency Center

Not checked in this pass. Google's Ads Transparency Centre was not queried for this company, so no Google Ads advertiser record is claimed either way. This is worth checking next: competitors bidding on 'solar panel price in Gandipet, Hyderabad 500086' take that high-intent demand.

Ads audit - control review

methodology: claude-ads Meta control catalog

Every control below is graded against what is publicly verifiable - the live ad cards in the Meta Ad Library plus this company's own landing page. Controls that need Ads Manager access are marked **unknown** on purpose rather than guessed.

ID	Control	Status	Evidence read live
M01	Meta Pixel installed	**GAP**	No Meta Pixel code found in the landing-page source - ad clicks cannot be measured or retargeted.
M39	UTM parameters on ad destinations	**GAP**	Live ads click to a Facebook lead form (fb.me) - traffic never reaches a page you own, so no URL can carry UTMs and click data stays inside Meta.
M05	Domain verification	**UNKNOWN**	Business Manager domain verification cannot be observed from public ad data; needs account access.
M25	Creative format diversity	**GAP**	All 1 live ads use a single format (video) - no format variety to test what converts.
M26	Creative concept coverage	**OK**	3 distinct offer angles in live copy: government subsidy, subsidy amount, installation speed.
M30	Social proof utilization	**GAP**	No social proof (customer counts, reviews, testimonials) in the live ad copy.
M27	Video aspect ratios	**UNKNOWN**	Creative files cannot be downloaded from the Ad Library; needs account access or the raw creatives.
M29	Hook rate	**UNKNOWN**	Video performance metrics are account-only.
M31	UGC / social-native content	**UNKNOWN**	Content style cannot be verified from ad cards alone.
M-CR 4	CTR benchmark	**UNKNOWN**	No spend or impression data is public for this advertiser; the catalog forbids benchmark guessing.
M-CR 1	Creative freshness	**OK**	Live creatives include recent launches (newest started Sep 11, 2026) - the account is not running one stale ad forever.

ID	Control	Status	Evidence read live
M11	Campaign fragmentation	GAP	A single live ad - no internal comparison, no safety net if it fatigues.
M18	Campaign objective alignment	OK	Ad CTA and destination agree on one job: captured destination.
M33	Advantage+ Placements	UNKNOWN	Placement automation state is account-only.
M28	Creative fatigue detection	UNKNOWN	Frequency and performance decay need account metrics.

Control review result: 3 OK · 5 gaps · 7 unknown (need account access) · 0 not applicable.

Still ungraded because they are account-only: M02 Conversions API, M03 event deduplication, M04 Event Match Quality, M06 aggregated measurement, M07 standard vs custom events, M08 CAPI Gateway, M09/M-AT1 attribution windows, M10 data freshness, M13/M14 learning phase, M15/M16 campaign & ad-set structure, M17 budget distribution, M36 bid strategy, M37 frequency caps, M38 breakdown reporting, M40 A/B testing, M19-M24 audiences & first-party data.

Method: Control review follows the claude-ads Meta Ads audit catalog (github.com/vamsy16/claude-ads, ads/references/meta-audit.md). Each control is graded only where public evidence establishes it - Ad Library ad data and the lead's own landing page. Controls that require Ads Manager access (bidding, budgets, audiences, learning phase, EMQ, CAPI status) are marked unknown on purpose: they cannot be verified from outside the account and are never guessed.

Competitor ad activity

who is buying attention in your market

Not checked in this pass. Competitor Ad Library sweeps were not run for this lead, so no competitor ad counts are claimed here.

Every live ad, in full

the evidence, unedited

Below is the complete text of every live ad exactly as the Meta Ad Library shows it, next to the library ID that opens it. Nothing here is summarised.

Library ID	Running since	Destination	Ad copy, verbatim from the Ad Library
1596852225147259 Aadithya Solar Energies	Sep 11, 2026	fb.me (http://fb.me/), confirmed on the ad card	Video ad, copy in Telugu script, which this report's fonts cannot render - given below by meaning. Latin-script lines are verbatim from the card; open the live ad to read the original. Verbatim: "Rs.78,000 Solar Subsidy", "Rs.78,000 Solar!", "Power Plant!", "Rooftop Solar Installation", "Solar Power", "Savings", "Aadithya Solar Energies", "Call: 94910 32828". Translated: register your details for solar subsidy information up to Rs.78,000; your own power plant on your own roof; check on electricity bills that rise every month; under the PM Surya Ghar Muft Bijli Yojana eligible households can get up to Rs.78,000 subsidy, with help through the process. CTA on the card: 'Book now'

Ad promise vs the page they land on

the fastest thing you can check yourself

What the live ad promises	What the landing page actually shows (read live)
Ad: 'Rs.78,000 ???? Solar Subsidy ?????? ???? ?? ??????? ????? ??????' - register your details for solar subsidy information up to Rs.78,000, under the PM Surya Ghar Muft Bijli Yojana, with rooftop installation, bill savings and bank-loan help listed as tick-box benefits.	The subsidy figure and the service list are real and are on the site - EPC Services, Solar Rooftop Solutions, Residential Solar Installations and Solar Street Light and Fencing, with 5KW / 20KW / 45KW system sizes. But the ad's 'Book now' button goes to fb.me, so the visitor is asked to register on a Facebook page instead of the page that lists those services.

What the live ad promises	What the landing page actually shows (read live)
Ad: 'Aadithya Solar Energies ?? ????? ????????????, Call: 94910 32828'.	That number is on the site (tel:+91-9491032828 in the footer) - but the header of the same page still prints the theme's placeholder (229) 555-0109 above it, so a visitor sees two different phone numbers before they reach the real one.
Ad: '?? ???? ???? ?? ???? Power Plant' - your own power plant on your own roof.	The site does describe rooftop solar and a Google Maps embed of the Gandipet office is on /contact/. Nothing on the site answers the question the ad raises - there is no savings calculator, no subsidy table and no price, and the only CTA is a 'Discover More' link that leaves the site for the theme vendor's homepage.

Website tracking & pixels

can you measure anything at all?

Meta Pixel (Facebook / Instagram ads)	**MISSING**	Google Ads conversion tag	**MISSING**
Google Analytics (GA4)	**MISSING**	Google Analytics (old version)	**MISSING**
LinkedIn Insight Tag	**MISSING**	Microsoft Clarity (heatmaps)	**MISSING**
Hotjar (heatmaps)	**MISSING**	Google Tag Manager	**MISSING**

8 of 8 tracking tools are missing. Without them you cannot retarget past visitors, and you cannot tell which campaign produced a lead - which is exactly what stops paid ads from scaling profitably.

Conversion readiness

how easily a visitor becomes an enquiry

Contact form on homepage	**OK**	Click-to-call phone number	**OK**
WhatsApp chat link	**MISSING**	Call-to-action buttons: 4 on homepage	**OK**
Live chat / chatbot	**MISSING**	Popup or offer capture	**MISSING**
Testimonials / social proof	**MISSING**	Pricing information visible	**MISSING**

What is already working

- **OK** Contact form exists
- **OK** Good CTA presence (4 buttons)

Technical snapshot

SSL / HTTPS	Yes
Server response time	Not checked in this pass
Mobile page speed	Not available at audit time (API returned 429)
Largest contentful paint	Not available at audit time
Page title	Aadithya Solar Energies
Meta description	Present (27 characters)
H1 headline	Not found on the page read
Structured data (Schema)	MISSING
Open Graph tags	MISSING

Images on homepage	Not checked in this pass
Indexed pages (sitemap)	Not checked in this pass
Google Maps / local SEO	Google Maps link / embed on the page read

Recommended next steps

your 30-day action plan

1	**Point the live ads at a page you own** Right now the click lands on fb.me (http://fb.me/), confirmed on the ad card - a landing page on your own domain can be measured, retargeted and tested.
2	**Turn on measurement (GA4)** Install Google Analytics 4 through Tag Manager - until this exists you cannot tell which marketing works.
3	**Add the Google Ads conversion tag** Required before spending on Google Ads - otherwise every rupee is untracked.
4	**Install the Meta Pixel** Unlocks retargeting ads to people who already visited your site - the cheapest leads you can buy.

How every number in this report was verified

so you can re-check any line yourself

Nothing in this report is estimated, illustrative or filled in. Every figure above was read off a live page or the Ad Library on the date shown, and the checks that could not be run are listed as not run rather than guessed.

What was checked	Where the number came from	Read on
Live ads, library IDs, start dates, ad copy	Meta Ad Library (India, active ads) - every ID opened directly	2026-11-10
Page source, script tags, pixels, JSON-LD, consent mode	W3C Nu HTML Checker (showsource=yes) + direct page fetch	2026-11-10
Headings, CTAs, forms, testimonials, pricing	Direct page fetch, plus the wp-json REST API on WordPress builds	2026-11-10
HTML / CSS error and warning counts	W3C Nu HTML Checker message list	2026-11-10
Mobile page speed and Largest Contentful Paint	NOT AVAILABLE - keyless PageSpeed API returned 429. No speed figure is claimed anywhere in this report.	not run
Google Ads Transparency advertiser record	NOT CHECKED - the centre was not queried, so no Google Ads activity is claimed here.	not run
Competitor ad activity and ad counts	NOT CHECKED - no Ad Library sweeps were run for this lead.	not run
Sitemap page count and indexed pages	NOT CHECKED - the sitemap was not fetched.	not run
Server response time	NOT CHECKED - not measured.	not run

Ready to fix this - and start capturing those leads?
