DIGITAL MARKETING & PAID ADS AUDIT

Hindusthan Solar Energy Enterprise

Secunderabad (Tarnaka) 500017 · https://hindusthansolarenergy.com/ · Audited 2026-11-08

WHAT WAS READ LIVE FOR THIS REPORT

Ads: live public data from the Meta Ad Library, read on 2026-11-08. **Website:** https://hindusthansolarenergy.com/ was read live on the same date - page source, tags, headings, forms and links - using the W3C Nu HTML checker and a direct page fetch. Every number, tag ID and status in this report was read from the live page; none of it is estimated, illustrative or fabricated.

NOT MEASURED - AND THEREFORE NOT CLAIMED

Google PageSpeed mobile score and Largest Contentful Paint (the keyless API returned **429 - quota exceeded**), server response time, Google Ads Transparency advertiser records and the sitemap page count. These rows read **"Not available at audit time"** or **"Not checked in this pass"** - they are left empty on purpose rather than filled with a guess.

Executive summary. 2 live Meta ads confirmed on 2026-11-08 by opening each library ID directly. Google Ads Transparency records were not checked in this pass.

ISSUES / 100

Solid foundation

Your homepage is in good shape. The remaining gaps are small but costly - close them before scaling ad spend.

Top priorities

what to fix first

1. **Your two live ads click through to an fb.me lead form inside Facebook, so the spend never reaches hindusthansolarenergy.com at all.**
2. **GA4 (G-LGSB5RQG1R) and the Google Ads tag (AW-18521456304) are both installed, but consent-mode v2 defaults ad_storage, ad_user_data, ad_personalization and analytics_storage to 'denied' and the gtag library is only appended after the first interaction or 5 s after idle - so the tags record almost nothing.**
3. **No Meta Pixel installed - can't run retargeting or track ad conversions**
   Fix: Install the free Meta Pixel - without it you cannot retarget site visitors or measure which ads produce enquiries.

Your live ads - Google (Search / YouTube / Display)

source: Google Ads Transparency Center

Not checked in this pass. Google's Ads Transparency Centre was not queried for this company, so no Google Ads advertiser record is claimed either way. This is worth checking next: competitors bidding on 'solar panel price in Secunderabad (Tarnaka) 500017' take that high-intent demand.

Ads audit - control review

methodology: claude-ads Meta control catalog

Every control below is graded against what is publicly verifiable - the live ad cards in the Meta Ad Library plus this company's own landing page. Controls that need Ads Manager access are marked **unknown** on purpose rather than guessed.

ID	Control	Status	Evidence read live
M01	Meta Pixel installed	**GAP**	No Meta Pixel code found in the landing-page source - ad clicks cannot be measured or retargeted.
M39	UTM parameters on ad destinations	**GAP**	Live ads click to a Facebook lead form (fb.me) - traffic never reaches a page you own, so no URL can carry UTMs and click data stays inside Meta.
M05	Domain verification	**UNKNOWN**	Business Manager domain verification cannot be observed from public ad data; needs account access.
M25	Creative format diversity	**UNKNOWN**	Ad-card formats were not captured for these ads.
M26	Creative concept coverage	**OK**	3 distinct offer angles in live copy: government subsidy, discount offer, bill savings.
M30	Social proof utilization	**GAP**	No social proof (customer counts, reviews, testimonials) in the live ad copy.
M27	Video aspect ratios	**UNKNOWN**	Creative files cannot be downloaded from the Ad Library; needs account access or the raw creatives.
M29	Hook rate	**UNKNOWN**	Video performance metrics are account-only.
M31	UGC / social-native content	**UNKNOWN**	Content style cannot be verified from ad cards alone.
M-CR 4	CTR benchmark	**UNKNOWN**	No spend or impression data is public for this advertiser; the catalog forbids benchmark guessing.
M-CR 1	Creative freshness	**OK**	Live creatives include recent launches (newest started Sep 23, 2026) - the account is not running one stale ad forever.
M11	Campaign fragmentation	**OK**	2 distinct live ads visible - a comparison is at least possible.

ID	Control	Status	Evidence read live
M18	Campaign objective alignment	OK	Ad CTA and destination agree on one job: captured destination.
M33	Advantage+ Placements	UNKNOWN	Placement automation state is account-only.
M28	Creative fatigue detection	UNKNOWN	Frequency and performance decay need account metrics.

Control review result: 4 OK · 3 gaps · 8 unknown (need account access) · 0 not applicable.

Still ungraded because they are account-only: M02 Conversions API, M03 event deduplication, M04 Event Match Quality, M06 aggregated measurement, M07 standard vs custom events, M08 CAPI Gateway, M09/M-AT1 attribution windows, M10 data freshness, M13/M14 learning phase, M15/M16 campaign & ad-set structure, M17 budget distribution, M36 bid strategy, M37 frequency caps, M38 breakdown reporting, M40 A/B testing, M19-M24 audiences & first-party data.

Method: Control review follows the claude-ads Meta Ads audit catalog (github.com/vamsy16/claude-ads, ads/references/meta-audit.md). Each control is graded only where public evidence establishes it - Ad Library ad data and the lead's own landing page. Controls that require Ads Manager access (bidding, budgets, audiences, learning phase, EMQ, CAPI status) are marked unknown on purpose: they cannot be verified from outside the account and are never guessed.

Competitor ad activity

who is buying attention in your market

Not checked in this pass. Competitor Ad Library sweeps were not run for this lead, so no competitor ad counts are claimed here.

Every live ad, in full

the evidence, unedited

Below is the complete text of every live ad exactly as the Meta Ad Library shows it, next to the library ID that opens it. Nothing here is summarised.

Website tracking & pixels

can you measure anything at all?

Recommended next steps

your 30-day action plan

1 **Point the live ads at a page you own**
Right now the click lands on fb.me lead form (confirmed on the ad card) - a landing page on your own domain can be measured, retargeted and tested.

2 **Install the Meta Pixel**
Unlocks retargeting ads to people who already visited your site - the cheapest leads you can buy.

3	**Re-run this audit after 30 days (this one is dated 2026-11-08)** Ad creative, destination and site tags all move. A second read shows whether the first fixes actually landed.
4	**Book a 10-minute call to walk through this report** Bring the report - every line in it can be re-checked live while we talk.
