NO WEBSITE

NO WEBSITE FOUND

This business converts customers directly inside the ad platform (WhatsApp / Facebook) - there is no website to audit. Every lead lives in a chat inbox: nothing can be tracked, retargeted, or scaled, and enquiries are lost the moment the conversation goes cold. This is the strongest possible pitch for a landing page with real tracking.

Top priorities

what to fix first

1	**No website exists - all leads stay inside WhatsApp / Facebook chat and cannot be tracked or retargeted**
2	**No tracking of any kind can be installed without a web property (pixels, GA4, conversions)**
3	**Build a landing page with enquiry form + Meta Pixel + GA4 to start converting this ad traffic you already pay for**

Recommended next steps

your 30-day action plan

1	**Open a Google Ads channel** No Google Ads presence was found, while competitors bid on the same 'solar + city' searches all day.
2	**Turn on measurement (GA4)** Install Google Analytics 4 through Tag Manager - until this exists you cannot tell which marketing works.
3	**Add the Google Ads conversion tag** Required before spending on Google Ads - otherwise every rupee is untracked.
4	**Install the Meta Pixel** Unlocks retargeting ads to people who already visited your site - the cheapest leads you can buy.
