WEBSITE AUDIT NOT RUN

This report covers **live ad activity only**, read from the public Meta Ad Library on 2026-10-22. No website was fetched, so it contains **no audit score, no tracking/pixel findings, no page-speed data and no conversion checklist** - those numbers are only real once the full pipeline runs. The complete report for Orbit Solar is produced with:
python run_pipeline.py https://orbitsolar.in/ "Orbit Solar" --city Hyderabad

Executive summary. Orbit Solar is the longest continuously-running advertiser in this batch: five live ads, the oldest started 6 November 2025 - residential ('They trusted us. You can too', 10 Dec 2025, six creatives), two commercial/industrial ROI ads (6 Nov 2025), an industrial Telangana ad (14 May 2026) and a new On-Grid Solar + UPS combo (4 Sep 2026). Every ad funnels to fb.me or WhatsApp - none points at a specific page on orbitsolar.in. The site itself (fetched 2026-10-22) claims MNRE-approved vendor status, carries residential and commercial brochures, a savings calculator and an enquiry form, and lists a Mehdipatnam address - none of which the ad copy uses beyond printing 'orbitsolar.in'.

Where your ad clicks land

the funnel behind the spend

Destination type	Split - fb.me links and WhatsApp
Destination	fb.me 'Sign Up' / 'Get quote' on the residential and UPS-combo ads; WhatsApp (wa.me/919059806772) on the commercial and industrial ads
What that means	No ad sends its click to a page on orbitsolar.in. The commercial and industrial spend - the highest-ticket offers - lands in a WhatsApp chat, and the residential spend lands behind an fb.me wrapper. The site's calculator, brochures and enquiry form sit outside the paid path entirely.

What I found

read live, not guessed

! Five live ads and the oldest has run since 6 November 2025 - a year of continuous spend across residential, commercial and industrial angles, plus a new On-Grid + UPS combo (4 Sep 2026).

! Not one ad points at a page on orbitsolar.in - residential and UPS-combo ads go to fb.me, the commercial and industrial ads go straight to WhatsApp.

! The install-count claims differ across live ads: '1000+ installations across Hyderabad' (residential), '500+ Successful Installations Across Telangana' (commercial) and '1,000+ industrial clients across India' (industrial) - a prospect who sees two ads sees two different companies.

! No email address is published anywhere on the live site - enquiries only via the form (name, mobile, email, location, monthly bill), phone or WhatsApp.

! The newest offer - On-Grid Solar + UPS Combo with smart auto-switching - has no page of its own on orbitsolar.in; the ad is the only place it exists.

Recommended next steps

what I would do first

1	**Give each angle its own owned page** Residential, commercial/industrial and the new UPS combo are three different buyers. One landing page per angle on orbitsolar.in - each with its own form - turns a year of fb.me and WhatsApp spend into a funnel you own and can test.
2	**Reconcile the numbers** 1000+ installations, 500+ across Telangana and 1,000+ industrial clients cannot all be the headline. One verified number, used everywhere, is worth more than three that contradict.
3	**Publish an email** A business spending on Meta for a year with no email on its site loses every enquiry that prefers to write. A care@ address on the form, the footer and the ads.
4	**Build the UPS combo page** On-grid + UPS with auto-switching is a differentiated product with a live ad behind it - it deserves a page with the combo, the switching logic and the net-metering assistance explained.
