DIGITAL MARKETING & PAID ADS AUDIT

Ray On Solar Systems

Hyderabad · https://www.rayonsolarsystems.in/ · Audited 2026-10-21

Executive summary. Ray On Solar Systems is running 1 live Meta ad (Library ID 1107666674962232, started 13 October 2026) offering a 3kW solar system with subsidy - and its click goes to Instagram, not to the website. The site has no tracking at all: no Meta Pixel, no GA4, no GTM, and no Google Ads record. The homepage has no enquiry form and no tap-to-call phone links, while every 'Get Started' button points to a /contact/ address that returns a 404 - the site's own free-quote form sits unused while the ad pays for clicks. Rank Math gives the site decent meta tags, but the title still reads 'Suryodhya ghar', never mentions the brand, and the schema markup uses invalid https://schema.org URLs that Google ignores. Meanwhile ~180 live competitor Meta ads and WAAREE's ~200 Google ads are buying the same customers.

Clear quick wins available

A handful of gaps are holding back your conversion rate. Fixing them is fast and low-cost.

Top priorities

what to fix first

1	**No Meta Pixel installed - can't run retargeting or track ad conversions**	**Fix:** Install the free Meta Pixel - without it you cannot retarget site visitors or measure which ads produce enquiries.
2	**No Google Ads / GTM tracking - can't measure ad performance**	**Fix:** Add the Google Ads conversion tag (via Tag Manager) so every enquiry traces back to a campaign.
3	**No Google Analytics - flying blind on website traffic**	**Fix:** Set up GA4 - right now nothing records how many people visit, where they come from, or which pages convert.
4	**No contact form on homepage - visitors can't easily enquire**	**Fix:** Put a short enquiry form (name, phone, rooftop size) above the fold on the homepage.

Recommended next steps

your 30-day action plan

1	**Open a Google Ads channel** No Google Ads presence was found, while competitors bid on the same 'solar + city' searches all day.
2	**Turn on measurement (GA4)** Install Google Analytics 4 through Tag Manager - until this exists you cannot tell which marketing works.
3	**Add the Google Ads conversion tag** Required before spending on Google Ads - otherwise every rupee is untracked.
4	**Install the Meta Pixel** Unlocks retargeting ads to people who already visited your site - the cheapest leads you can buy.
