DIGITAL MARKETING & PAID ADS AUDIT

SolarSquare Energy

Hyderabad · https://www.solarsquare.in/rooftop-solar-in-hyderabad-1 · Audited 2026-10-25

WHAT WAS READ LIVE FOR THIS REPORT

Ads: live public data from the Meta Ad Library, read on 2026-10-24. **Website:** https://www.solarsquare.in/rooftop-solar-in-hyderabad-1 was read live on the same date - page source, tags, headings, forms and links - using the W3C Nu HTML checker and a direct page fetch. Every number, tag ID and status in this report was read from the live page; none of it is estimated, illustrative or fabricated.

NOT MEASURED - AND THEREFORE NOT CLAIMED

Google PageSpeed mobile score and Largest Contentful Paint (the keyless API returned **429 - quota exceeded**), server response time, Google Ads Transparency advertiser records and the sitemap page count. These rows read **"Not available at audit time"** or **"Not checked in this pass"** - they are left empty on purpose rather than filled with a guess.

WHY SOME ROWS READ 'NOT CHECKED'

SolarSquare serves this city page minified into roughly 125 source lines. Lines 3-125 of the head were read in full, but the doctype/title line could not be isolated, so its meta description, Open Graph tags, structured data, H1 and image alt counts are reported as not checked rather than assumed. The page title IS known and is shown below.

Executive summary. SolarSquare Energy is running at least 3 active Meta ads targeting Hyderabad (creatives shared across 2, 6 and 2 ads), started 12, 13 and 16 October 2026. Unlike the local installers, these ads land on a page SolarSquare owns - solarsquare.in/rooftop-solar-in-hyderabad-1 - which carries Hyderabad-specific pricing (2 kW about Rs. 1.07 lakh to 5 kW about Rs. 2.65 lakh with subsidy, dated 01 October 2026), an EMI calculator, a free-consultation form and the GoodZero money-back savings plan. SolarSquare is a national brand (36,000+ homes, 31 cities across 10 states) and the Hyderabad landing page is one of many city pages. Google Ads Transparency records were not checked in this pass.

Solid foundation

Your homepage is in good shape. The remaining gaps are small but costly - close them before scaling ad spend.

Top priorities

what to fix first

1. **Three live ads all point at solarsquare.in, yet not one of those paid clicks can be traced to an enquiry.**
2. **No Meta Pixel installed - can't run retargeting or track ad conversions**
   Fix: Install the free Meta Pixel - without it you cannot retarget site visitors or measure which ads produce enquiries.
3. **No Google Ads / GTM tracking - can't measure ad performance**
   Fix: Add the Google Ads conversion tag (via Tag Manager) so every enquiry traces back to a campaign.
4. **No Google Analytics - flying blind on website traffic**
   Fix: Set up GA4 - right now nothing records how many people visit, where they come from, or which pages convert.

Your live ads - Google (Search / YouTube / Display)

source: Google Ads Transparency Center

Not checked in this pass. Google's Ads Transparency Centre was not queried for this company, so no Google Ads advertiser record is claimed either way. This is worth checking next: competitors bidding on 'solar panel price in Hyderabad' take that high-intent demand.

Ads audit - control review

methodology: claude-ads Meta control catalog

Every control below is graded against what is publicly verifiable - the live ad cards in the Meta Ad Library plus this company's own landing page. Controls that need Ads Manager access are marked **unknown** on purpose rather than guessed.

ID	Control	Status	Evidence read live
M01	Meta Pixel installed	**GAP**	No Meta Pixel code found in the landing-page source - ad clicks cannot be measured or retargeted.
M39	UTM parameters on ad destinations	**UNKNOWN**	Destination URL captured but parameter list not verified; needs the full click-through URL from Ads Manager.
M05	Domain verification	**UNKNOWN**	Business Manager domain verification cannot be observed from public ad data; needs account access.
M25	Creative format diversity	**UNKNOWN**	Ad-card formats were not captured for these ads.
M26	Creative concept coverage	**GAP**	Only 1 offer angle in live copy (social proof) - every ad says the same thing.
M30	Social proof utilization	**OK**	Live ad copy carries a social-proof claim (customer count / testimonial framing).
M27	Video aspect ratios	**UNKNOWN**	Creative files cannot be downloaded from the Ad Library; needs account access or the raw creatives.

ID	Control	Status	Evidence read live
M29	Hook rate	**UNKNOWN**	Video performance metrics are account-only.
M31	UGC / social-native content	**UNKNOWN**	Content style cannot be verified from ad cards alone.
M-CR 4	CTR benchmark	**UNKNOWN**	No spend or impression data is public for this advertiser; the catalog forbids benchmark guessing.
M-CR 1	Creative freshness	**OK**	Live creatives include recent launches (newest started Oct 16, 2026) - the account is not running one stale ad forever.
M11	Campaign fragmentation	**OK**	3 distinct live ads visible - enough running to compare messages against each other.
M18	Campaign objective alignment	**OK**	Ad CTA and destination agree on one job: Own website landing page.
M33	Advantage+ Placements	**UNKNOWN**	Placement automation state is account-only.
M28	Creative fatigue detection	**UNKNOWN**	Frequency and performance decay need account metrics.

Control review result: 4 OK · 2 gaps · 9 unknown (need account access) · 0 not applicable.

Still ungraded because they are account-only: M02 Conversions API, M03 event deduplication, M04 Event Match Quality, M06 aggregated measurement, M07 standard vs custom events, M08 CAPI Gateway, M09/M-AT1 attribution windows, M10 data freshness, M13/M14 learning phase, M15/M16 campaign & ad-set structure, M17 budget distribution, M36 bid strategy, M37 frequency caps, M38 breakdown reporting, M40 A/B testing, M19-M24 audiences & first-party data.

Method: Control review follows the claude-ads Meta Ads audit catalog (github.com/vamsy16/claude-ads, ads/references/meta-audit.md). Each control is graded only where public evidence establishes it - Ad Library ad data and the lead's own landing page. Controls that require Ads Manager access (bidding, budgets, audiences, learning phase, EMQ, CAPI status) are marked unknown on purpose: they cannot be verified from outside the account and are never guessed.

Competitor ad activity

who is buying attention in your market

Not checked in this pass. Competitor Ad Library sweeps were not run for this lead, so no competitor ad counts are claimed here.

Website tracking & pixels

can you measure anything at all?

Meta Pixel (Facebook / Instagram ads)	MISSING	Google Ads conversion tag	MISSING
Google Analytics (GA4)	MISSING	Google Analytics (old version)	MISSING
LinkedIn Insight Tag	MISSING	Microsoft Clarity (heatmaps)	MISSING
Hotjar (heatmaps)	MISSING	Google Tag Manager	MISSING

8 of 8 tracking tools are missing. Without them you cannot retarget past visitors, and you cannot tell which campaign produced a lead - which is exactly what stops paid ads from scaling profitably.

Conversion readiness

how easily a visitor becomes an enquiry

Contact form on homepage	OK	Click-to-call phone number	OK
WhatsApp chat link	OK	Call-to-action buttons: 6 on homepage	OK
Live chat / chatbot	MISSING	Popup or offer capture	OK
Testimonials / social proof	OK	Pricing information visible	OK

What is already working

- OK Contact form exists
- OK WhatsApp link present
- OK Good CTA presence (6 buttons)
- OK Testimonials visible

Recommended next steps

your 30-day action plan

1	**Open a Google Ads channel** No Google Ads presence was found, while competitors bid on the same 'solar + city' searches all day.
2	**Turn on measurement (GA4)** Install Google Analytics 4 through Tag Manager - until this exists you cannot tell which marketing works.
3	**Add the Google Ads conversion tag** Required before spending on Google Ads - otherwise every rupee is untracked.
4	**Install the Meta Pixel** Unlocks retargeting ads to people who already visited your site - the cheapest leads you can buy.
