LIVE AD ACTIVITY

Four Solar

Hyderabad · https://www.foursolar.com/ · Ad data pulled 2026-10-20

WEBSITE AUDIT NOT RUN

This report covers **live ad activity only**, read from the public Meta Ad Library on 2026-10-20. No website was fetched, so it contains **no audit score, no tracking/pixel findings, no page-speed data and no conversion checklist** - those numbers are only real once the full pipeline runs. The complete report for Four Solar is produced with:
python run_pipeline.py https://www.foursolar.com/ "Four Solar" --city Hyderabad

Executive summary. No active Meta ads were found for Four Solar Energy Systems (Ad Library probe 'Four Solar Hyderabad', 2026-10-20). Meanwhile five Hyderabad installers - Evergrid Energy (Library IDs 1642242114211409 and 1079793338257084), Solox Energies (2023601181805342), Truzon Solar (1522258176260844), Punarvi Energies (1122725223617884 and 994804120334409) and Twilight Solar (3823689667771361 and 28023952863910719) - are all live this month buying the same homeowner with Rs. 78,000-subsidy offers. Four Solar's 13-year track record is not in front of any paid traffic.

0	-	Own website + chat/WhatsApp	Meta
LIVE ADS RUNNING	LONGEST-RUNNING AD	WHERE CLICKS LAND	SOURCE

Your live ads - Meta (Facebook / Instagram)

source: Meta Ad Library

No active Meta ads were found for this company. Competitors in your city are buying this attention instead - which is itself the finding worth acting on.

Where your ad clicks land

the funnel behind the spend

Destination type	Own website + chat/WhatsApp
Destination	Site contact form, live chat widget and WhatsApp
What that means	The conversion paths are decent - the form takes city and roof details, and there is a chat widget. The gap is that nothing paid drives into them, so every enquiry depends on someone already looking for you by name.

Ads audit - control review

methodology: claude-ads Meta control catalog

Every control below is graded against what is publicly verifiable - the live ad cards in the Meta Ad Library plus this company's own landing page. Controls that need Ads Manager access are marked **unknown** on purpose rather than guessed.

ID	Control	Status	Evidence read live
M01	Meta Pixel installed	UNKNOWN	Landing page was not source-checked for this report; needs a page-source pull or account access.
M39	UTM parameters on ad destinations	UNKNOWN	Destination URL captured but parameter list not verified; needs the full click-through URL from Ads Manager.
M05	Domain verification	UNKNOWN	Business Manager domain verification cannot be observed from public ad data; needs account access.
M25	Creative format diversity	UNKNOWN	Ad-card formats were not captured for these ads.
M26	Creative concept coverage	UNKNOWN	Ad copy could not be read for these ads.
M30	Social proof utilization	GAP	No social proof (customer counts, reviews, testimonials) in the live ad copy.
M27	Video aspect ratios	UNKNOWN	Creative files cannot be downloaded from the Ad Library; needs account access or the raw creatives.
M29	Hook rate	UNKNOWN	Video performance metrics are account-only.
M31	UGC / social-native content	UNKNOWN	Content style cannot be verified from ad cards alone.
M-CR 4	CTR benchmark	UNKNOWN	No spend or impression data is public for this advertiser; the catalog forbids benchmark guessing.
M-CR 1	Creative freshness	UNKNOWN	Ad start dates were not captured.
M11	Campaign fragmentation	UNKNOWN	No live ads captured.
M18	Campaign objective alignment	OK	Ad CTA and destination agree on one job: Own website + chat/WhatsApp.
M33	Advantage+ Placements	UNKNOWN	Placement automation state is account-only.
M28	Creative fatigue detection	UNKNOWN	Frequency and performance decay need account metrics.

Control review result: 1 OK · 1 gaps · 13 unknown (need account access) · 0 not applicable.

Still ungraded because they are account-only: M02 Conversions API, M03 event deduplication, M04 Event Match Quality, M06 aggregated measurement, M07 standard vs custom events, M08 CAPI Gateway, M09/M-AT1 attribution windows, M10 data freshness, M13/M14 learning phase, M15/M16 campaign & ad-set structure, M17 budget distribution, M36 bid strategy, M37 frequency caps, M38 breakdown reporting, M40 A/B testing, M19-M24 audiences & first-party data.

Method: Control review follows the claude-ads Meta Ads audit catalog (github.com/vamsy16/claude-ads, ads/references/meta-audit.md). Each control is graded only where public evidence establishes it - Ad Library ad data and the lead's own landing page. Controls that require Ads Manager access (bidding, budgets, audiences, learning phase, EMQ, CAPI status) are marked unknown on purpose: they cannot be verified from outside the account and are never guessed.

What I found

read live, not guessed

- ! No active Meta ads under your name - five Hyderabad installers (Evergrid, Solox, Truzon, Punarvi, Twilight) are live this month buying the same homeowner with the same Rs. 78,000-subsidy message.
- ! The site claims 13+ years, 50 MW+ delivered and 1500+ satisfied clients, with 15+ gated communities powered, a 1521-government-schools Telangana order and a 160 kW Corporate Bhavan (Ministry of Corporate Affairs) job. That proof exists - it is just not in front of paid traffic.
- ! TGREDCO-empanelled (TSRE180027) with PM Surya Ghar and PM-KUSUM experience - credentials that convert homeowners who have already seen three competitor ads.
- ! The site itself is in good shape: a multi-city quote form (Hyderabad, Secunderabad, Ranga Reddy, Medchal-Malkajgiri), a live chat widget, a WhatsApp button and a detailed residential page covering approvals, roof types and monitoring. Good raw material that no paid traffic ever sees.

! Everything on the site is in English. In this market the strongest competitor creatives run in Telugu to the same homeowner - and your head office is here.

Recommended next steps

what I would do first

1	**Test paid lead gen in Hyderabad** Start with a small Meta budget on one residential offer - subsidy up to Rs. 78,000, free site visit. Your five competitors are already proving the demand exists in this city.
2	**Build a dedicated residential landing page** The residential page exists - turn it into one paid landing page: subsidy, gated-community track record, free site visit, quote form on it.
3	**Run Telugu creative** Test a Telugu version of the offer against English. Telugu is the language of the Telangana homeowner, and your competitors are already spending there.
4	**Put the government work to work** The 1521-schools order and the Corporate Bhavan job are strong proof for a trust-led paid campaign - most local installers cannot show that.
