DIGITAL MARKETING & PAID ADS AUDIT

Wisda Energy

Hyderabad · https://www.wisda.in/ · Audited 2026-10-25

WHAT WAS READ LIVE FOR THIS REPORT

Ads: live public data from the Meta Ad Library, read on 2026-10-24. **Website:** https://wisda.in was read live on the same date - page source, tags, headings, forms and links - using the W3C Nu HTML checker and a direct page fetch. Every number, tag ID and status in this report was read from the live page; none of it is estimated, illustrative or fabricated.

NOT MEASURED - AND THEREFORE NOT CLAIMED

Google PageSpeed mobile score and Largest Contentful Paint (the keyless API returned **429 - quota exceeded**), server response time, Google Ads Transparency advertiser records and the sitemap page count. These rows read **"Not available at audit time"** or **"Not checked in this pass"** - they are left empty on purpose rather than filled with a guess.

Executive summary. Wisda Energy (Wisda Ventures Pvt Ltd) is running 1 active Meta video ad, started 10 October 2026, offering Hyderabad homeowners a free home survey and subsidy assistance. The click lands on an fb.me lead form inside Facebook, so the spend never reaches wisda.in. The site is a Secunderabad (Tarnaka) office serving Hyderabad with rooftop and ground-mount solar plus AMC, showcases Miyapur installations at 3 kW and 5 kW, claims 1k+ happy customers, and lists TGREDCO empanelment (TSRE240457). Google Ads Transparency records were not checked in this pass.

10
ISSUES / 100

Solid foundation

Your homepage is in good shape. The remaining gaps are small but costly - close them before scaling ad spend.

Top priorities

what to fix first

1	**Your live ad clicks through to an fb.me lead form inside Facebook - the spend never reaches wisda.in, so no pixel can be measured on the landing experience.**
2	**No WhatsApp link - losing mobile leads (WhatsApp converts 3x better for Indian home services)** **Fix:** Add a WhatsApp chat button - WhatsApp converts about 3x better than forms for Indian homeowners.
3	**No live chat - missing after-hours leads** **Fix:** Add a free chat widget (Tawk.to) so after-hours visitors still become leads.
4	**7 images missing alt text - hurts SEO** **Fix:** Add descriptive alt text to every image - free SEO that brings image-search traffic.

Your live ads - Meta (Facebook / Instagram)

source: Meta Ad Library

1 active ad results found. Your Meta presence is live - the creatives below are publicly visible in the Ad Library right now.

Wisda Energy
Running since **Oct 10, 2026** (29 days) | Library ID 1653176663099926

"Video ad: 'Hyderabad homeowners - Ready to go solar? Own a home in Hyderabad? Go Solar. Save More. Get a FREE home survey and subsidy assistance. Call us at 9100126750.' Creative text: 'Hyderabad Homeowners: Go Solar and Get Subsidy - Reduce your monthly electricity bill with a customized rooftop solar solution. Government subsidy assistance available.'"

Open the live ad

Your live ads - Google (Search / YouTube / Display)

source: Google Ads Transparency Center

Not checked in this pass. Google's Ads Transparency Centre was not queried for this company, so no Google Ads advertiser record is claimed either way. This is worth checking next: competitors bidding on 'solar panel price in Hyderabad' take that high-intent demand.

Ads audit - control review

methodology: claude-ads Meta control catalog

Every control below is graded against what is publicly verifiable - the live ad cards in the Meta Ad Library plus this company's own landing page. Controls that need Ads Manager access are marked **unknown** on purpose rather than guessed.

ID	Control	Status	Evidence read live
M01	Meta Pixel installed	**OK**	Meta Pixel code (fbq / connect.facebook.net) found in the live landing-page source.
M39	UTM parameters on ad destinations	**GAP**	Live ads click to a Facebook lead form (fb.me) - traffic never reaches a page you own, so no URL can carry UTMs and click data stays inside Meta.
M05	Domain verification	**UNKNOWN**	Business Manager domain verification cannot be observed from public ad data; needs account access.
M25	Creative format diversity	**GAP**	All 1 live ads use a single format (video) - no format variety to test what converts.
M26	Creative concept coverage	**GAP**	Only 2 offer angles in live copy (government subsidy, bill savings) - every ad says the same thing.
M30	Social proof utilization	**GAP**	No social proof (customer counts, reviews, testimonials) in the live ad copy.
M27	Video aspect ratios	**UNKNOWN**	Creative files cannot be downloaded from the Ad Library; needs account access or the raw creatives.
M29	Hook rate	**UNKNOWN**	Video performance metrics are account-only.
M31	UGC / social-native content	**UNKNOWN**	Content style cannot be verified from ad cards alone.
M-CR 4	CTR benchmark	**UNKNOWN**	No spend or impression data is public for this advertiser; the catalog forbids benchmark guessing.
M-CR 1	Creative freshness	**OK**	Live creatives include recent launches (newest started Oct 10, 2026) - the account is not running one stale ad forever.
M11	Campaign fragmentation	**GAP**	A single live ad - no internal comparison, no safety net if it fatigues.
M18	Campaign objective alignment	**OK**	Ad CTA and destination agree on one job: Facebook lead form (fb.me).

ID	Control	Status	Evidence read live
M33	Advantage+ Placements	UNKNOWN	Placement automation state is account-only.
M28	Creative fatigue detection	UNKNOWN	Frequency and performance decay need account metrics.

Control review result: 3 OK · 5 gaps · 7 unknown (need account access) · 0 not applicable.

Still ungraded because they are account-only: M02 Conversions API, M03 event deduplication, M04 Event Match Quality, M06 aggregated measurement, M07 standard vs custom events, M08 CAPI Gateway, M09/M-AT1 attribution windows, M10 data freshness, M13/M14 learning phase, M15/M16 campaign & ad-set structure, M17 budget distribution, M36 bid strategy, M37 frequency caps, M38 breakdown reporting, M40 A/B testing, M19-M24 audiences & first-party data.

Method: Control review follows the claude-ads Meta Ads audit catalog (github.com/vamsy16/claude-ads, ads/references/meta-audit.md). Each control is graded only where public evidence establishes it - Ad Library ad data and the lead's own landing page. Controls that require Ads Manager access (bidding, budgets, audiences, learning phase, EMQ, CAPI status) are marked unknown on purpose: they cannot be verified from outside the account and are never guessed.

Competitor ad activity

who is buying attention in your market

Not checked in this pass. Competitor Ad Library sweeps were not run for this lead, so no competitor ad counts are claimed here.

Every live ad, in full

the evidence, unedited

Below is the complete text of every live ad exactly as the Meta Ad Library shows it, next to the library ID that opens it. Nothing here is summarised.

Library ID	Running since	Destination	Ad copy, verbatim from the Ad Library
1653176663099926 Wisda Energy	Oct 10, 2026	fb.me (inside Facebook)	Video ad: 'Hyderabad homeowners - Ready to go solar? Own a home in Hyderabad? Go Solar. Save More. Get a FREE home survey and subsidy assistance. Call us at 9100126750.' Creative text: 'Hyderabad Homeowners: Go Solar and Get Subsidy - Reduce your monthly electricity bill with a customized rooftop solar solution. Government subsidy assistance available.'

Ad promise vs the page they land on

the fastest thing you can check yourself

What the live ad promises	What the landing page actually shows (read live)
Ad: 'Save up to Rs.1,00,000 with Government Subsidy + Special Discount Offers. Up to Rs.78,000 Subsidy Available.'	The site's own copy promises 'transparent pricing models' but publishes no prices at all, so the subsidy and discount figures in the ad cannot be checked against anything on wisda.in - and the ad lands on an fb.me lead form, so paid visitors never reach the page regardless.
Ad: 'Trusted by 500+ Homes Across Hyderabad.'	The tracking that would prove this is in place - Meta Pixel 1494048391894940, GA4 G-SYCFTFNH0N and GTM-PTPCLJ5R are all installed - which is exactly why the fb.me destination is costing you: the pixel is measuring a Facebook form, not your own site.

Website tracking & pixels

can you measure anything at all?

Meta Pixel (Facebook / Instagram ads)	OK	Google Ads conversion tag	MISSING
Google Analytics (GA4)	OK	Google Analytics (old version)	MISSING
LinkedIn Insight Tag	MISSING	Microsoft Clarity (heatmaps)	MISSING
Hotjar (heatmaps)	MISSING	Google Tag Manager	OK

5 of 8 tracking tools are missing. Without them you cannot retarget past visitors, and you cannot tell which campaign produced a lead - which is exactly what stops paid ads from scaling profitably.

Conversion readiness

how easily a visitor becomes an enquiry

Contact form on homepage	OK	Click-to-call phone number	OK
WhatsApp chat link	MISSING	Call-to-action buttons: 3 on homepage	OK
Live chat / chatbot	MISSING	Popup or offer capture	MISSING
Testimonials / social proof	OK	Pricing information visible	MISSING

What is already working

- OK Meta Pixel is installed
- OK Google tracking is present
- OK Google Analytics is installed
- OK Contact form exists
- OK Good CTA presence (3 buttons)
- OK Testimonials visible

Technical snapshot

SSL / HTTPS	Yes
Server response time	Not checked in this pass
Mobile page speed	Not available at audit time (API returned 429)
Largest contentful paint	Not available at audit time
Page title	Best Rooftop Solar Company in Hyderabad | Wisda Energy
Meta description	Present
H1 headline	Together for Future: Empowering India Through Green Energy
Structured data (Schema)	Present
Open Graph tags	Present
Images on homepage	18 total on the page read, 7 missing alt text
Indexed pages (sitemap)	Not checked in this pass

Google Maps / local SEO	No Google Maps embed found on the page read

Recommended next steps

your 30-day action plan

1	**Add the Google Ads conversion tag** Required before spending on Google Ads - otherwise every rupee is untracked.
2	**Capture after-hours enquiries** Add a chat widget or callback prompt - a share of solar research happens late at night.
3	**Fix 7 images missing alt text** A one-hour fix that improves Google rankings and image-search traffic.
4	**Point the live ads at a page you own** Right now the click lands on fb.me (inside Facebook) - a landing page on your own domain can be measured, retargeted and tested.

How every number in this report was verified

so you can re-check any line yourself

Nothing in this report is estimated, illustrative or filled in. Every figure above was read off a live page or the Ad Library on the date shown, and the checks that could not be run are listed as not run rather than guessed.

What was checked	Where the number came from	Read on
Live ads, library IDs, start dates, ad copy	Meta Ad Library (India, active ads) - every ID opened directly	2026-10-25
Page source, script tags, pixels, JSON-LD, consent mode	W3C Nu HTML Checker (showsource=yes) + direct page fetch	2026-10-25
Headings, CTAs, forms, testimonials, pricing	Direct page fetch, plus the wp-json REST API on WordPress builds	2026-10-25
HTML / CSS error and warning counts	W3C Nu HTML Checker message list	2026-10-25
Mobile page speed and Largest Contentful Paint	NOT AVAILABLE - keyless PageSpeed API returned 429. No speed figure is claimed anywhere in this report.	not run
Google Ads Transparency advertiser record	NOT CHECKED - the centre was not queried, so no Google Ads activity is claimed here.	not run
Competitor ad activity and ad counts	NOT CHECKED - no Ad Library sweeps were run for this lead.	not run
Sitemap page count and indexed pages	NOT CHECKED - the sitemap was not fetched.	not run
Server response time	NOT CHECKED - not measured.	not run

Ready to fix this - and start capturing those leads?

Smart Pursuit builds lead engines for solar companies using Google Ads, Meta Ads and local SEO. Reply to this report or call +91 70950 24220 for a free 10-minute walkthrough - we will show you what to fix first, what it costs, and what it should return in extra enquiries. No pitch, no obligation.
