LIVE AD ACTIVITY

Junna Solar Systems

Hyderabad · https://www.junnasolar.com/ · Ad data pulled 2026-10-20

WEBSITE AUDIT NOT RUN

This report covers **live ad activity only**, read from the public Meta Ad Library on 2026-10-20. No website was fetched, so it contains **no audit score, no tracking/pixel findings, no page-speed data and no conversion checklist** - those numbers are only real once the full pipeline runs. The complete report for Junna Solar Systems is produced with:
python run_pipeline.py https://www.junnasolar.com/ "Junna Solar Systems" --city Hyderabad

Executive summary. No active Meta ads were found for Junna Solar Systems (Ad Library probe 'Junna Solar', 2026-10-20). Meanwhile five Hyderabad installers - Evergrid Energy (Library IDs 1642242114211409 and 1079793338257084), Solox Energies (2023601181805342), Truzon Solar (1522258176260844), Punarvi Energies (1122725223617884 and 994804120334409) and Twilight Solar (3823689667771361 and 28023952863910719) - are all live this month buying the same homeowner with Rs. 78,000-subsidy offers. Junna's 13-year rooftop track record is not in front of any paid traffic.

0	-	Own website form (JavaScript app)	Meta
LIVE ADS RUNNING	LONGEST-RUNNING AD	WHERE CLICKS LAND	SOURCE

Your live ads - Meta (Facebook / Instagram)

source: Meta Ad Library

No active Meta ads were found for this company. Competitors in your city are buying this attention instead - which is itself the finding worth acting on.

Where your ad clicks land

the funnel behind the spend

Destination type	Own website form (JavaScript app)
Destination	Free-consultation form on junnasolar.com + phone
What that means	The site is a JavaScript application - the homepage renders almost nothing without JS, and the floating WhatsApp button in the served HTML points at wa.me/undefined, a broken deep link. Enquiries that do arrive come by phone; nothing paid drives traffic to the site at all.

Ads audit - control review

methodology: claude-ads Meta control catalog

Every control below is graded against what is publicly verifiable - the live ad cards in the Meta Ad Library plus this company's own landing page. Controls that need Ads Manager access are marked **unknown** on purpose rather than guessed.

ID	Control	Status	Evidence read live
M01	Meta Pixel installed	**UNKNOWN**	Landing page was not source-checked for this report; needs a page-source pull or account access.
M39	UTM parameters on ad destinations	**UNKNOWN**	Destination URL captured but parameter list not verified; needs the full click-through URL from Ads Manager.
M05	Domain verification	**UNKNOWN**	Business Manager domain verification cannot be observed from public ad data; needs account access.
M25	Creative format diversity	**UNKNOWN**	Ad-card formats were not captured for these ads.
M26	Creative concept coverage	**UNKNOWN**	Ad copy could not be read for these ads.
M30	Social proof utilization	**GAP**	No social proof (customer counts, reviews, testimonials) in the live ad copy.
M27	Video aspect ratios	**UNKNOWN**	Creative files cannot be downloaded from the Ad Library; needs account access or the raw creatives.
M29	Hook rate	**UNKNOWN**	Video performance metrics are account-only.
M31	UGC / social-native content	**UNKNOWN**	Content style cannot be verified from ad cards alone.
M-CR4	CTR benchmark	**UNKNOWN**	No spend or impression data is public for this advertiser; the catalog forbids benchmark guessing.
M-CR1	Creative freshness	**UNKNOWN**	Ad start dates were not captured.
M11	Campaign fragmentation	**UNKNOWN**	No live ads captured.
M18	Campaign objective alignment	**OK**	Ad CTA and destination agree on one job: Own website form (JavaScript app).
M33	Advantage+ Placements	**UNKNOWN**	Placement automation state is account-only.
M28	Creative fatigue detection	**UNKNOWN**	Frequency and performance decay need account metrics.

Control review result: 1 OK · 1 gaps · 13 unknown (need account access) · 0 not applicable.

Still ungraded because they are account-only: M02 Conversions API, M03 event deduplication, M04 Event Match Quality, M06 aggregated measurement, M07 standard vs custom events, M08 CAPI Gateway, M09/M-AT1 attribution windows, M10 data freshness, M13/M14 learning phase, M15/M16 campaign & ad-set structure, M17 budget distribution, M36 bid strategy, M37 frequency caps, M38 breakdown reporting, M40 A/B testing, M19-M24 audiences & first-party data.

Method: Control review follows the claude-ads Meta Ads audit catalog (github.com/vamsy16/claude-ads, ads/references/meta-audit.md). Each control is graded only where public evidence establishes it - Ad Library ad data and the lead's own landing page. Controls that require Ads Manager access (bidding, budgets, audiences, learning phase, EMQ, CAPI status) are marked unknown on purpose: they cannot be verified from outside the account and are never guessed.

What I found

read live, not guessed

! No active Meta ads under your name - five Hyderabad installers (Evergrid, Solox, Truzon, Punarvi, Twilight) are live this month buying the same homeowner with the same Rs. 78,000-subsidy message.

- ! Incorporated in December 2012 and now a public limited company (CIN U40106TG2012PLC084777), TGREDCO-empanelled (TSRE180043) and a registered PM Surya Ghar vendor for Telangana North - 13+ years of rooftop and water-pump work, HQ in Kukatpally.
- ! The live site is a JavaScript app: the homepage renders almost nothing without JavaScript, so the first thing a paid click or a search visitor sees is a loader.
- ! The floating WhatsApp button in the served HTML points at wa.me/undefined - a broken deep link on the exact channel a solar buyer is most likely to tap.
- ! You are hiring across sales and project roles (project managers, sales engineers, project engineers) - clear growth mode, with zero paid acquisition behind it.

Recommended next steps

what I would do first

1	**Fix the broken WhatsApp link** The floating button's wa.me target is undefined in the served HTML. That is a lost-lead path on the channel your customers actually use.
2	**Server-render the homepage** Make the key content (what you do, where you operate, how to enquire) visible without JavaScript, so search and paid traffic see it instantly.
3	**Test paid lead gen in Hyderabad** A small Meta budget on one residential offer, Kukatpally/Kompally/Secunderabad targeting, would put 13 years of rooftop work in front of buyers who currently only see competitor ads.
4	**Run Telugu creative** Telugu is the language of the Telangana homeowner - and it is what your competitors' creatives already speak.
