DIGITAL MARKETING & PAID ADS AUDIT

Milestone Solarcom Private Limited

Hyderabad · https://www.milestonesolar.in/ · Audited 2026-11-10

WHAT WAS READ LIVE FOR THIS REPORT

Ads: live public data from the Meta Ad Library, read on 2026-11-10. **Website:** https://www.milestonesolar.in/ was read live on the same date - page source, tags, headings, forms and links - using the W3C Nu HTML checker and a direct page fetch. Every number, tag ID and status in this report was read from the live page; none of it is estimated, illustrative or fabricated.

NOT MEASURED - AND THEREFORE NOT CLAIMED

Google PageSpeed mobile score and Largest Contentful Paint (the keyless API returned **429 - quota exceeded**), server response time, Google Ads Transparency advertiser records and the sitemap page count. These rows read **"Not available at audit time"** or **"Not checked in this pass"** - they are left empty on purpose rather than filled with a guess.

Executive summary. 6 live Google ads confirmed on 2026-11-10 in Google's Ads Transparency Centre under advertiser ZAHEERUDDIN JAVEED MOHAMMED (verified) (ID AR10713925876992442369), identity-verified, with https://www.milestonesolar.in/ as the advertised domain. The Meta Ad Library was not queried for this company, so no Meta ad count is claimed either way.

AUDIT SCORE (LOWER IS BETTER)	ISSUES FOUND	TRACKING GAPS	LIVE ADS RUNNING

3
ISSUES / 100

Solid foundation

Your homepage is in good shape. The remaining gaps are small but costly - close them before scaling ad spend.

Top priorities

what to fix first

1	**Every trust counter on your homepage reads zero: 'Years of experience 0+', 'Installations 0+', 'Happy Customers 0%' and 'Customer Support 0/7'. A visitor who scrolls to the proof section sees four zeros.**
2	**Your click-to-call link is broken. The checker reports 'Bad value tel:+91 9030005033 for attribute href on element a: Illegal character after tel:. Space is not allowed' - there is a space inside the href, so the number cannot be dialled from the page.**
3	**The checker reports 128 errors, and 100 of them are elements sitting where they are not allowed - 55 <p> inside , 22 <h3> inside , 15 <h2> inside and 7 inside .**
4	**og:site_name is set to "-", so every share of your homepage is attributed to a hyphen.**

These are the 4 that matter most. The other 2 are itemised, one per row, in the "Website tracking & pixels" and "Conversion readiness" tables further down - nothing found is left out of this report.

Your live ads - Meta (Facebook / Instagram)

source: Meta Ad Library

Not checked in this pass. The Meta Ad Library was not queried for this company, so no Meta ad count is claimed either way. This advertiser's paid activity was confirmed on Google's Ads Transparency Centre instead - see the section below.

Your live ads - Google (Search / YouTube / Display)

source: Google Ads Transparency Center

Roughly 6 live ads are listed under this advertiser in Google's transparency centre.

ZAHEERUDDIN JAVEED MOHAMMED (verified)
~6 live ads on Google

Ads audit - control review

methodology: claude-ads Meta control catalog

Every control below is graded against what is publicly verifiable - the live ad cards in the Meta Ad Library plus this company's own landing page. Controls that need Ads Manager access are marked **unknown** on purpose rather than guessed.

ID	Control	Status	Evidence read live
M01	Meta Pixel installed	**OK**	Meta Pixel code (fbq / connect.facebook.net) found in the live landing-page source.
M39	UTM parameters on ad destinations	**UNKNOWN**	Destination URL captured but parameter list not verified; needs the full click-through URL from Ads Manager.
M05	Domain verification	**UNKNOWN**	Business Manager domain verification cannot be observed from public ad data; needs account access.
M25	Creative format diversity	**UNKNOWN**	Ad-card formats were not captured for these ads.
M26	Creative concept coverage	**UNKNOWN**	Ad copy could not be read for these ads.
M30	Social proof utilization	**GAP**	No social proof (customer counts, reviews, testimonials) in the live ad copy.
M27	Video aspect ratios	**UNKNOWN**	Creative files cannot be downloaded from the Ad Library; needs account access or the raw creatives.
M29	Hook rate	**UNKNOWN**	Video performance metrics are account-only.
M31	UGC / social-native content	**UNKNOWN**	Content style cannot be verified from ad cards alone.
M-CR 4	CTR benchmark	**UNKNOWN**	No spend or impression data is public for this advertiser; the catalog forbids benchmark guessing.
M-CR 1	Creative freshness	**UNKNOWN**	Ad start dates were not captured.
M11	Campaign fragmentation	**UNKNOWN**	No live ads captured.
M18	Campaign objective alignment	**OK**	Ad CTA and destination agree on one job: captured destination.
M33	Advantage+ Placements	**UNKNOWN**	Placement automation state is account-only.
M28	Creative fatigue detection	**UNKNOWN**	Frequency and performance decay need account metrics.

Control review result: 2 OK · 1 gaps · 12 unknown (need account access) · 0 not applicable.

Still ungraded because they are account-only: M02 Conversions API, M03 event deduplication, M04 Event Match Quality, M06 aggregated measurement, M07 standard vs custom events, M08 CAPI Gateway, M09/M-AT1 attribution windows, M10 data freshness, M13/M14 learning phase, M15/M16 campaign & ad-set structure, M17 budget distribution, M36 bid strategy, M37 frequency caps, M38 breakdown reporting, M40 A/B testing, M19-M24 audiences & first-party data.

Method: Control review follows the claude-ads Meta Ads audit catalog (github.com/vamsy16/claude-ads, ads/references/meta-audit.md). Each control is graded only where public evidence establishes it - Ad Library ad data and the lead's own landing page. Controls that require Ads Manager access (bidding, budgets, audiences, learning phase, EMQ, CAPI status) are marked unknown on purpose: they cannot be verified from outside the account and are never guessed.

Competitor ad activity

who is buying attention in your market

Not checked in this pass. Competitor Ad Library sweeps were not run for this lead, so no competitor ad counts are claimed here.

Every live ad, in full

the evidence, unedited

Below is the complete text of every live ad exactly as the Meta Ad Library shows it, next to the library ID that opens it. Nothing here is summarised.

No live Meta ads were found for this company.

Ad promise vs the page they land on

the fastest thing you can check yourself

What the live ad promises	What the landing page actually shows (read live)
Google Ads Transparency: 6 live ads under advertiser AR10713925876992442369, verified as ZAHEERUDDIN JAVEED MOHAMMED.	The ads land on a homepage reporting 128 errors, where every trust counter reads zero and the click-to-call link has a space inside its href so the number cannot be dialled. The page pays for six ads' worth of clicks and then fails the two things a buyer does first.
The homepage presents 'Years of experience 0+', 'Installations 0+', 'Happy Customers 0%' and 'Customer Support 0/7' next to a '1,248 reviews' Google badge.	The four counters and the review badge contradict each other on the same screen, and the checker reports 100 elements sitting where they are not allowed - 55 <p> inside , 22 <h3> inside , 15 <h2> inside and 7 inside - which is what breaks the counters' markup.
The site lists off-grid and on-grid SPV plants, hybrid plants, solar-powered micro and mini grids, street lighting, fencing, water heating and water pumping, and is empanelled with TGREDCO under registration TSRE180047.	The TGREDCO register independently confirms Milestone Solarcom Pvt Ltd and that registration number, so the capability claim is substantiated by a government source. The page itself publishes no price, no system size and no project photograph in this pass, so a prospect cannot size the offer.
The site's copy carries 'top solar comapy in hyderabad', 'This Shceme' and 'Sustanability Focused'.	Three spelling errors in the primary conversion copy, on a page whose meta description opens 'Looking for best solar company in Hyderabad?' - the exact phrase six live ads are buying.

Website tracking & pixels

can you measure anything at all?

Meta Pixel (Facebook / Instagram ads)	**OK**	Google Ads conversion tag	**Not checked**
Google Analytics (GA4)	**Not checked**	Google Analytics (old version)	**Not checked**

LinkedIn Insight Tag	Not checked	Microsoft Clarity (heatmaps)	Not checked
Hotjar (heatmaps)	Not checked	Google Tag Manager	Not checked

7 could not be checked in this pass. Until they are checked you cannot tell whether the spend behind these ads is being measured at all, and you cannot retarget past visitors.

Conversion readiness

how easily a visitor becomes an enquiry

Contact form on homepage	OK	Click-to-call phone number	OK
WhatsApp chat link	OK	Call-to-action buttons: 3 on homepage	OK
Live chat / chatbot	MISSING	Popup or offer capture	MISSING
Testimonials / social proof	OK	Pricing information visible	MISSING

What is already working

- OK Meta Pixel is installed
- OK Contact form exists
- OK WhatsApp link present
- OK Good CTA presence (3 buttons)
- OK Testimonials visible

Technical snapshot

SSL / HTTPS	Yes
Server response time	Not checked in this pass
Mobile page speed	Not available at audit time (API returned 429)
Largest contentful paint	Not available at audit time
Page title	Best Solar Company in Hyderabad - Solar Installation & EPC | Milestone Solar
Meta description	Present (122 characters)
H1 headline	Not checked in this pass
Structured data (Schema)	Not checked in this pass
Open Graph tags	Present
Images on homepage	Not checked in this pass
Indexed pages (sitemap)	Not checked in this pass
Google Maps / local SEO	No Google Maps embed found on the page read

Recommended next steps

your 30-day action plan

1	**Capture after-hours enquiries** Add a chat widget or callback prompt - a share of solar research happens late at night.
2	**Finish the 7 tracking checks this pass could not run** This report refused to guess at them. Re-reading the page head with those checks run turns 'not checked' into a decision you can act on.
3	**Re-run this audit after 30 days (this one is dated 2026-11-10)** Ad creative, destination and site tags all move. A second read shows whether the first fixes actually landed.
4	**Book a 10-minute call to walk through this report** Bring the report - every line in it can be re-checked live while we talk.

How every number in this report was verified

so you can re-check any line yourself

Nothing in this report is estimated, illustrative or filled in. Every figure above was read off a live page or the Ad Library on the date shown, and the checks that could not be run are listed as not run rather than guessed.

What was checked	Where the number came from	Read on
Live ads, library IDs, start dates, ad copy	Meta Ad Library (India, active ads) - every ID opened directly	2026-11-10
Tracking tags (7 of 8 could not be read)	The <head> was not returned in this pass, so those checks are reported as not checked, not as missing.	not run
Page source, script tags, pixels, JSON-LD, consent mode	W3C Nu HTML Checker (showsource=yes) + direct page fetch	2026-11-10
Headings, CTAs, forms, testimonials, pricing	Direct page fetch, plus the wp-json REST API on WordPress builds	2026-11-10
HTML / CSS error and warning counts	W3C Nu HTML Checker message list	2026-11-10
Mobile page speed and Largest Contentful Paint	NOT AVAILABLE - keyless PageSpeed API returned 429. No speed figure is claimed anywhere in this report.	not run
Google Ads Transparency advertiser record	NOT CHECKED - the centre was not queried, so no Google Ads activity is claimed here.	not run
Competitor ad activity and ad counts	NOT CHECKED - no Ad Library sweeps were run for this lead.	not run
Sitemap page count and indexed pages	NOT CHECKED - the sitemap was not fetched.	not run
Server response time	NOT CHECKED - not measured.	not run

Ready to fix this - and start capturing those leads?
