DIGITAL MARKETING & PAID ADS AUDIT

Nature Power Solar

Kothagudem 507101 (serves all of Telangana and Andhra Pradesh) · https://naturepowersolar.com/ · Audited 2026-11-10

WHAT WAS READ LIVE FOR THIS REPORT

Ads: live public data from the Meta Ad Library, read on 2026-11-10. **Website:** https://naturepowersolar.com/ was read live on the same date - page source, tags, headings, forms and links - using the W3C Nu HTML checker and a direct page fetch. Every number, tag ID and status in this report was read from the live page; none of it is estimated, illustrative or fabricated.

NOT MEASURED - AND THEREFORE NOT CLAIMED

Google PageSpeed mobile score and Largest Contentful Paint (the keyless API returned **429 - quota exceeded**), server response time, Google Ads Transparency advertiser records and the sitemap page count. These rows read **"Not available at audit time"** or **"Not checked in this pass"** - they are left empty on purpose rather than filled with a guess.

Executive summary. 1 live Google ads confirmed on 2026-11-10 in Google's Ads Transparency Centre under advertiser CHITWALA JOHN SANDEEP (verified) (ID AR11194127933927063553), identity-verified, with https://naturepowersolar.com/ as the advertised domain. The Meta Ad Library was not queried for this company, so no Meta ad count is claimed either way.

AUDIT SCORE (LOWER IS BETTER)	ISSUES FOUND	TRACKING GAPS	LIVE ADS RUNNING

8
ISSUES / 100

Solid foundation

Your homepage is in good shape. The remaining gaps are small but costly - close them before scaling ad spend.

Top priorities

what to fix first

1	**Your Search Console and Bing verification tokens are still the commented-out placeholders the developer shipped: the source carries <!-- <meta name="google-site-verification" content="PASTE_TOKEN"> --> and <!-- <meta name="msvalidate.01" content="PASTE_TOKEN"> -->. You are buying Google ads for a site Google has never been able to verify ownership of.**
2	**You run 1 live Google ad and the only tracking in your head is the Google Ads tag AW-609769092. There is no Meta Pixel, so nobody who leaves without filling the form can be reached again on Facebook or Instagram.** **Fix:** Install the free Meta Pixel - without it you cannot retarget site visitors or measure which ads produce enquiries.
3	**Your markup is the cleanest of the five - 6 errors, 0 warnings, 0 info - and your savings calculator publishes real numbers. That is the strongest asset in this audit and it is doing the work of five pages.**
4	**The checker finds a stray <script> start tag after </body> at source line 420, and your calculator's <output> element has an id that does not match the for attribute of its own label.**

These are the 4 that matter most. The other 3 are itemised, one per row, in the "Website tracking & pixels" and "Conversion readiness" tables further down - nothing found is left out of this report.

Your live ads - Meta (Facebook / Instagram)

source: Meta Ad Library

Not checked in this pass. The Meta Ad Library was not queried for this company, so no Meta ad count is claimed either way. This advertiser's paid activity was confirmed on Google's Ads Transparency Centre instead - see the section below.

Your live ads - Google (Search / YouTube / Display)

source: Google Ads Transparency Center

Roughly 1 live ads are listed under this advertiser in Google's transparency centre.

CHITWALA JOHN SANDEEP (verified)
~1 live ads on Google

Ads audit - control review

methodology: claude-ads Meta control catalog

Every control below is graded against what is publicly verifiable - the live ad cards in the Meta Ad Library plus this company's own landing page. Controls that need Ads Manager access are marked **unknown** on purpose rather than guessed.

ID	Control	Status	Evidence read live
M01	Meta Pixel installed	**GAP**	No Meta Pixel code found in the landing-page source - ad clicks cannot be measured or retargeted.
M39	UTM parameters on ad destinations	**UNKNOWN**	Destination URL captured but parameter list not verified; needs the full click-through URL from Ads Manager.
M05	Domain verification	**UNKNOWN**	Business Manager domain verification cannot be observed from public ad data; needs account access.
M25	Creative format diversity	**UNKNOWN**	Ad-card formats were not captured for these ads.
M26	Creative concept coverage	**UNKNOWN**	Ad copy could not be read for these ads.
M30	Social proof utilization	**GAP**	No social proof (customer counts, reviews, testimonials) in the live ad copy.
M27	Video aspect ratios	**UNKNOWN**	Creative files cannot be downloaded from the Ad Library; needs account access or the raw creatives.
M29	Hook rate	**UNKNOWN**	Video performance metrics are account-only.
M31	UGC / social-native content	**UNKNOWN**	Content style cannot be verified from ad cards alone.
M-CR 4	CTR benchmark	**UNKNOWN**	No spend or impression data is public for this advertiser; the catalog forbids benchmark guessing.
M-CR 1	Creative freshness	**UNKNOWN**	Ad start dates were not captured.
M11	Campaign fragmentation	**UNKNOWN**	No live ads captured.
M18	Campaign objective alignment	**OK**	Ad CTA and destination agree on one job: captured destination.
M33	Advantage+ Placements	**UNKNOWN**	Placement automation state is account-only.

ID	Control	Status	Evidence read live
M28	Creative fatigue detection	UNKNOWN	Frequency and performance decay need account metrics.

Control review result: 1 OK · 2 gaps · 12 unknown (need account access) · 0 not applicable.

Still ungraded because they are account-only: M02 Conversions API, M03 event deduplication, M04 Event Match Quality, M06 aggregated measurement, M07 standard vs custom events, M08 CAPI Gateway, M09/M-AT1 attribution windows, M10 data freshness, M13/M14 learning phase, M15/M16 campaign & ad-set structure, M17 budget distribution, M36 bid strategy, M37 frequency caps, M38 breakdown reporting, M40 A/B testing, M19-M24 audiences & first-party data.

Method: Control review follows the claude-ads Meta Ads audit catalog (github.com/vamsy16/claude-ads, ads/references/meta-audit.md). Each control is graded only where public evidence establishes it - Ad Library ad data and the lead's own landing page. Controls that require Ads Manager access (bidding, budgets, audiences, learning phase, EMQ, CAPI status) are marked unknown on purpose: they cannot be verified from outside the account and are never guessed.

Competitor ad activity

who is buying attention in your market

Not checked in this pass. Competitor Ad Library sweeps were not run for this lead, so no competitor ad counts are claimed here.

Every live ad, in full

the evidence, unedited

Below is the complete text of every live ad exactly as the Meta Ad Library shows it, next to the library ID that opens it. Nothing here is summarised.

No live Meta ads were found for this company.

Ad promise vs the page they land on

the fastest thing you can check yourself

What the live ad promises	What the landing page actually shows (read live)
Google Ads Transparency: 1 live ad under advertiser AR11194127933927063553, verified as CHITWALA JOHN SANDEEP - a sole proprietorship behind the Nature Power Solar trading name.	The ad buys a click to the best-built page in this audit: 6 errors, 0 warnings, 0 info, a live savings calculator with real Telangana tariffs, and JSON-LD that names the founder, the operations manager, the Google Maps listing and the exact subsidy tiers. The gap is not the page - it is that nothing on it is measured.
The site claims 'Authorised PM Surya Ghar vendor' and publishes the subsidy as Rs. 30,000 for 1 kW, Rs. 60,000 for 2 kW and Rs. 78,000 for 3 kW and above, plus Rs. 18,000 per kW for apartment societies up to 500 kW, with the scheme running to 31 March 2027.	Those figures match the published PM Surya Ghar schedule and the calculator's worked example (a Rs. 3,500 monthly bill resolving to a 4 kW system at Rs. 2.48 lakh, Rs. 78,000 subsidy, Rs. 1.7 lakh net, Rs. 3,325 a month saved, 4.1-year payback) is internally consistent. The claim is substantiated. What is missing is any way to see whether the claim converts.
The site claims '500+ installations' and '48-hour service - local team, every district'.	Neither figure is backed by a case study, a photograph or a review count on the page read in this pass, and the Search Console verification token is still a commented-out placeholder, so Google has never confirmed who owns the domain those claims sit on.

Website tracking & pixels

can you measure anything at all?

Meta Pixel (Facebook / Instagram ads)	MISSING	Google Ads conversion tag	OK
Google Analytics (GA4)	OK	Google Analytics (old version)	MISSING
LinkedIn Insight Tag	MISSING	Microsoft Clarity (heatmaps)	MISSING
Hotjar (heatmaps)	MISSING	Google Tag Manager	MISSING

6 of 8 tracking tools are missing. Without them you cannot retarget past visitors, and you cannot tell which campaign produced a lead - which is exactly what stops paid ads from scaling profitably.

Conversion readiness

how easily a visitor becomes an enquiry

Contact form on homepage	OK	Click-to-call phone number	OK
WhatsApp chat link	OK	Call-to-action buttons: 9 on homepage	OK
Live chat / chatbot	MISSING	Popup or offer capture	MISSING
Testimonials / social proof	Not checked	Pricing information visible	OK

What is already working

- OK Google tracking is present
- OK Google Analytics is installed
- OK Contact form exists
- OK WhatsApp link present
- OK Good CTA presence (9 buttons)

Technical snapshot

SSL / HTTPS	Yes
Server response time	Not checked in this pass
Mobile page speed	Not available at audit time (API returned 429)
Largest contentful paint	Not available at audit time
Page title	Rooftop Solar in Telangana | Rs.78,000 Subsidy | Nature Power Solar
Meta description	Present (154 characters)
H1 headline	Not checked in this pass
Structured data (Schema)	Present
Open Graph tags	Present
Images on homepage	Not checked in this pass
Indexed pages (sitemap)	Not checked in this pass

Google Maps / local SEO	Google Maps link / embed on the page read

Recommended next steps

your 30-day action plan

1	**Install the Meta Pixel** Unlocks retargeting ads to people who already visited your site - the cheapest leads you can buy.
2	**Capture after-hours enquiries** Add a chat widget or callback prompt - a share of solar research happens late at night.
3	**Re-run this audit after 30 days (this one is dated 2026-11-10)** Ad creative, destination and site tags all move. A second read shows whether the first fixes actually landed.
4	**Book a 10-minute call to walk through this report** Bring the report - every line in it can be re-checked live while we talk.

How every number in this report was verified

so you can re-check any line yourself

Nothing in this report is estimated, illustrative or filled in. Every figure above was read off a live page or the Ad Library on the date shown, and the checks that could not be run are listed as not run rather than guessed.

What was checked	Where the number came from	Read on
Live ads, library IDs, start dates, ad copy	Meta Ad Library (India, active ads) - every ID opened directly	2026-11-10
Page source, script tags, pixels, JSON-LD, consent mode	W3C Nu HTML Checker (showsource=yes) + direct page fetch	2026-11-10
Headings, CTAs, forms, testimonials, pricing	Direct page fetch, plus the wp-json REST API on WordPress builds	2026-11-10
HTML / CSS error and warning counts	W3C Nu HTML Checker message list	2026-11-10
Mobile page speed and Largest Contentful Paint	NOT AVAILABLE - keyless PageSpeed API returned 429. No speed figure is claimed anywhere in this report.	not run
Google Ads Transparency advertiser record	NOT CHECKED - the centre was not queried, so no Google Ads activity is claimed here.	not run
Competitor ad activity and ad counts	NOT CHECKED - no Ad Library sweeps were run for this lead.	not run
Sitemap page count and indexed pages	NOT CHECKED - the sitemap was not fetched.	not run
Server response time	NOT CHECKED - not measured.	not run

Ready to fix this - and start capturing those leads?

Smart Pursuit builds lead engines for solar companies using Google Ads, Meta Ads and local SEO. Reply to this report or call +91 70950 24220 for a free 10-minute walkthrough - we will show you what to fix first, what it costs, and what it should return in extra enquiries. No pitch, no obligation.
