DIGITAL MARKETING & PAID ADS AUDIT

Ecolt Energy

Hyderabad · https://www.ecoltenergy.com/ · Audited 2026-10-21

Executive summary. Ecolt Energy is running 2 live Telugu ads on Meta - both sharing one creative (Library ID 1405421181747986, started 13 October 2026) selling a 3KW rooftop system at Rs.1,90,000 with a Rs.33,000 discount plus the Rs.78,000 PM Surya Ghar subsidy - and every click lands in a Facebook lead form, never on the polished ecoltenergy.com the ad budget pays for. The site itself is strong on the basics: SSL, contact form, WhatsApp, an 'Ask Ecolt' chat panel, full meta tags, Open Graph, LocalBusiness schema and an 18-page sitemap with a Telugu version - but it carries zero tracking. No Meta Pixel, no Google Ads tag, no GA4, no GTM: nothing a visitor does on the site can be measured, attributed or retargeted, and the claim of '2,000+ systems installed' sits above counters that read 0 and a project map your own source code labels 'placeholder EXAMPLES only'. No Google Ads record exists for the company, so search demand goes to competitors instead.

Solid foundation

Your homepage is in good shape. The remaining gaps are small but costly - close them before scaling ad spend.

Top priorities

what to fix first

1. **No Meta Pixel installed - can't run retargeting or track ad conversions**
   Fix: Install the free Meta Pixel - without it you cannot retarget site visitors or measure which ads produce enquiries.
2. **No Google Ads / GTM tracking - can't measure ad performance**
   Fix: Add the Google Ads conversion tag (via Tag Manager) so every enquiry traces back to a campaign.
3. **No Google Analytics - flying blind on website traffic**
   Fix: Set up GA4 - right now nothing records how many people visit, where they come from, or which pages convert.
4. **Your homepage's project map is explicitly labelled 'placeholder EXAMPLES only' in your own source code**

Website tracking & pixels

can you measure anything at all?

Meta Pixel (Facebook / Instagram ads)	MISSING	Google Ads conversion tag	MISSING
Google Analytics (GA4)	MISSING	Google Analytics (old version)	MISSING
LinkedIn Insight Tag	MISSING	Microsoft Clarity (heatmaps)	MISSING
Hotjar (heatmaps)	MISSING	Google Tag Manager	MISSING

8 of 8 tracking tools are missing. Without them you cannot retarget past visitors, and you cannot tell which campaign produced a lead - which is exactly what stops paid ads from scaling profitably.

Recommended next steps

your 30-day action plan

1	**Open a Google Ads channel** No Google Ads presence was found, while competitors bid on the same 'solar + city' searches all day.
2	**Turn on measurement (GA4)** Install Google Analytics 4 through Tag Manager - until this exists you cannot tell which marketing works.
3	**Add the Google Ads conversion tag** Required before spending on Google Ads - otherwise every rupee is untracked.
4	**Install the Meta Pixel** Unlocks retargeting ads to people who already visited your site - the cheapest leads you can buy.
