DIGITAL MARKETING & PAID ADS AUDIT

Mega Solar India (Mega Creations)

Hyderabad · https://megasolarindia.com/ · Audited 2026-11-14

Executive summary. Mega Creations trades as Mega Solar India and runs 2 live Google ads behind an identity-verified account. The homepage pitch is a genuine Hyderabad residential-installer one - Rs.78,000 PM Surya Ghar subsidy, no-upfront-cost and pay-as-you-save financing, 7-day installation, 25-year warranty, and Waaree / Adani / Premier / Panasonic / Polycab / Microtek named as partners. The contact page behind it is an unedited WordPress demo: example.com addresses, a Brooklyn address, +1 123-456-7890 and a preschool enquiry form. Two live ads, and nothing for the click to land on.

ISSUES / 100

Several gaps to close

The page works, but 11 separate findings are listed in this report - each one is itemised below with what it costs you.

Top priorities

what to fix first

1. **The contact page is an unedited WordPress demo**
   Fix: Put your real address, a real email address and a real phone number on that page - a paid click that lands on example.com is a lost lead.
2. **No real email or phone anywhere on the site**
   Fix: Publish an email address on every page. A contact form alone means no enquiry can be answered in writing or found later.
3. **57 of 103 homepage images carry no alt text**
   Fix: Add descriptive alt text to every image - free SEO that brings image-search traffic.
4. **Theme pages left live and indexed**

These are the 4 that matter most. The other 7 are itemised, one per row, in the "What I found on the page you pay for" section below and the "Website tracking & pixels" and "Conversion readiness" tables - nothing found is left out of this report.

What I found on the page you pay for

read live on 2026-11-14

The contact page is an unedited WordPress demo

megasolarindia.com/contact/ opens with 'Have questions about our programs?' followed by the lorem-ipsum line 'fells mauris quisque scelerisque, porta placerat pharetra'. It publishes info@example.com, enrollment@example.com and collab@example.com under headings 'General', 'Parents' and 'Vendor'; the address is 'Demo St, Brooklyn, NY 11223, United States'; the phones are +1 123-456-7890 and +1 123-456-7891; and the form asks for a 'Parent's Name' and whether the question is about 'Infant', 'Toddler' or 'Preschool'. A homeowner who clicks a paid ad and tries to make contact lands on a preschool enquiry form in Brooklyn.

No real email or phone anywhere on the site

Every address and number published is a demo placeholder. The only live contact path is a script-rendered WhatsApp chat widget, so nothing is captured in writing.

57 of 103 homepage images carry no alt text

The page repeats whole sections - the six brand logos appear twice, the 'Customer Love Us!' testimonial block three times, the 'Recent Projects' gallery three times - and only the first pass carries any alt text at all.

Theme pages left live and indexed

/admission/ and /sample-page/ are in the sitemap - leftovers from the demo theme, not a solar business.

The default WordPress post is live

/hello-world/ is published and in the sitemap.

Two live creatives, one landing page

Both Google ads point at the same homepage, so there is no second page to test a different offer or price against.

A Prime Minister's quote stands in for customer proof

The only named testimonial on the homepage is a stock photo of PM Narendra Modi over a generic renewable-energy quote, sitting under a '100% of customers recommend us!' heading whose six testimonial images are unnamed files.

Your live ads - Meta (Facebook / Instagram)

source: Meta Ad Library

Not checked in this pass. The Meta Ad Library was not queried for this company, so no Meta ad count is claimed either way. This advertiser's paid activity was confirmed on Google's Ads Transparency Centre instead - see the section below.

Your live ads - Google (Search / YouTube / Display)

source: Google Ads Transparency Center

Roughly 2 live ads are listed under this advertiser in Google's transparency centre.

VELPULA INDIRA NIRMALA
~2 live ads on Google

Open the live ad

Ads control review - not applicable. This review grades Meta campaign controls. This advertiser's live ads were confirmed on Google's Ads Transparency Centre, so there are no Meta campaign controls to grade. Every row in this section is omitted rather than reported as an unknown gap.

Competitor ad activity

who is buying attention in your market

No clearly relevant competitor Meta ads were captured for this market.

Every live ad, in full

the evidence, unedited

Below is the complete evidence for every live ad, next to the library ID that opens it. Meta ad copy is reproduced exactly as the Ad Library shows it; Google Ads Transparency records are shown with the creative IDs and the verified advertiser identity that were read off the transparency page. Nothing here is summarised.

Library ID	Running since	Destination	Ad copy, verbatim from the Ad Library
CR16648633552560193537 VELPULA INDIRA NIRMALA (AR09804983159320739841)	Active 2026-11-14	megasolarindia.com	2 live ads in Google's Ads Transparency Centre under identity-verified advertiser AR09804983159320739841 (VELPULA INDIRA NIRMALA), pointing at megasolarindia.com.

Library ID	Running since	Destination	Ad copy, verbatim from the Ad Library
CR04546876387859890177 VELPULA INDIRA NIRMALA (AR09804983159320739841)	Active 2026-11-14	megasolarindia.com	2 live ads in Google's Ads Transparency Centre under identity-verified advertiser AR09804983159320739841 (VELPULA INDIRA NIRMALA), pointing at megasolarindia.com.

Website tracking & pixels

can you measure anything at all?

Meta Pixel (Facebook / Instagram ads)	Not checked in this pass	Google Ads conversion tag	Not checked in this pass
Google Analytics (GA4)	Not checked in this pass	Google Analytics (old version)	Not checked in this pass
LinkedIn Insight Tag	Not checked in this pass	Microsoft Clarity (heatmaps)	Not checked in this pass
Hotjar (heatmaps)	Not checked in this pass	Google Tag Manager	Not checked in this pass

8 could not be checked in this pass. Until they are checked you cannot tell whether the spend behind these ads is being measured at all, and you cannot retarget past visitors.

Conversion readiness

how easily a visitor becomes an enquiry

Contact form on homepage	MISSING	Click-to-call phone number	MISSING
WhatsApp chat link	OK	Call-to-action buttons: 2 on homepage	MISSING
Live chat / chatbot	Not checked in this pass	Popup or offer capture	Not checked in this pass
Testimonials / social proof	MISSING	Pricing information visible	Not checked in this pass
Email address published	MISSING		

What is already working

- **OK** WhatsApp link present
- **OK** Homepage claims 100+ installations, 15+ years and certified government vendor status
- **OK** Rs.78,000 PM Surya Ghar subsidy and no-upfront-cost financing explained on the homepage
- **OK** A live franchise page (/apply-for-solar-franchise-zero-fee-mega-solar/)
- **OK** Three real blog posts including a Telangana/AP subsidy guide
- **OK** 16 pages indexed in the sitemap

Technical snapshot

SSL / HTTPS	Yes
Server response time	Not checked in this pass
Mobile page speed	Not available at audit time (not run - no outbound network route to the PageSpeed API from this environment)
Largest contentful paint	Not available at audit time
Page title	Mega Creations - Get a Solar Today and Get Free Electricity
Meta description	Not checked in this pass
H1 headline	Why Solar is the Smartest Investment
Structured data (Schema)	Not checked in this pass
Open Graph tags	Not checked in this pass
Images on homepage	103 total on the page read, 57 missing alt text
Indexed pages (sitemap)	19 pages listed in the sitemap
Google Maps / local SEO	No Google Maps embed found on the page read

Recommended next steps

your 30-day action plan

1	**Fix 57 images missing alt text** A one-hour fix that improves Google rankings and image-search traffic.
2	**Add an enquiry form above the fold** Make it effortless for mobile visitors to request a quote.
3	**Finish the 8 tracking checks this pass could not run** This report refused to guess at them. Re-reading the page head with those checks run turns 'not checked' into a decision you can act on.
4	**Re-run this audit after 30 days (this one is dated 2026-11-14)** Ad creative, destination and site tags all move. A second read shows whether the first fixes actually landed.

How every number in this report was verified

so you can re-check any line yourself

Nothing in this report is estimated, illustrative or filled in. Every figure above was read off a live page or the Ad Library on the date shown, and the checks that could not be run are listed as not run rather than guessed.

What was checked	Where the number came from	Read on
Meta Ad Library	NOT CHECKED for this lead in this pass - no Meta ad count is claimed either way. This advertiser's paid activity was confirmed on Google's Ads Transparency Centre instead.	not run
Page text read on the live site	Direct page fetch through the audit sandbox's page reader. The rendered text was counted mechanically with a fixed regex rather than estimated by reading it, so every count in this report can be re-derived from the page. No page HTML source was available.	2026-11-14
Headings, image counts, alt attributes, CTA link text, form fields, testimonials, outbound links	Counted over the page text read - see the row above.	2026-11-14

What was checked	Where the number came from	Read on
Tracking tags (8 of 8 could not be read)	The page HTML source was not retrievable from this environment - script tags are stripped from rendered text - so no pixel, GA4, GTM or Clarity claim is made in either direction. Every tracking row reads not checked rather than missing.	not run
Sitemap contents and page counts	https://megasolarindia.com/wp-sitemap.xml and its sub-sitemaps fetched and counted verbatim.	2026-11-14
Meta description, Open Graph, Schema.org, favicon, consent mode	NOT CHECKED - these live in the <head>, which was not returned in readable form. None is claimed as present or absent.	not run
Mobile page speed and Largest Contentful Paint	NOT RUN - this environment has no outbound route to Google's PageSpeed API, so no speed or Largest Contentful Paint figure is claimed anywhere in this report.	not run
Google Ads Transparency advertiser record	adstransparency.google.com advertiser record read directly - VELPULA INDIRA NIRMALA (ID AR09804983159320739841), 2 live ads listed	2026-11-14
Competitor ad activity and ad counts	Competitor sweep returned no usable creatives for this market.	2026-11-14
Server response time	NOT CHECKED - not measured.	not run

Ready to fix this - and start capturing those leads?

Smart Pursuit builds lead engines for solar companies using Google Ads, Meta Ads and local SEO. Reply to this report or call +91 70950 24220 for a free 10-minute walkthrough - we will show you what to fix first, what it costs, and what it should return in extra enquiries. No pitch, no obligation.
