DIGITAL MARKETING & PAID ADS AUDIT

PNR Sunrise Energies Pvt Ltd

Hyderabad (Telangana & Andhra Pradesh) · https://sunriseenergies.in/ · Audited 2026-11-14

Executive summary. PNR Sunrise Energies ran its first captured ad on 12 November 2026 - two days before this sweep - and it recruits channel partners rather than homeowners, making them the youngest advertiser in the batch and the only one whose paid message aims at the trade. The site behind it is the most complete of the five: a working solar calculator, a six-step process, four named projects with generation figures, three named testimonials and detailed management bios. It is also the one with every hero counter reading zero, no email address, and no sitemap.

2/100	6	0 (+8 not checked)	1
AUDIT SCORE (LOWER IS BETTER)	ISSUES FOUND	TRACKING GAPS	LIVE ADS RUNNING

2	Solid foundation
ISSUES / 100	Your homepage is in good shape. The remaining gaps are small but costly - close them before scaling ad spend.

Top priorities

what to fix first

1	**Every hero counter reads zero**	**Fix:** Enter the real project count, installed capacity and savings figures. A zero reads as a company that has done nothing, next to claims of 150 projects.
2	**No email address published anywhere**	**Fix:** Publish an email address on every page. A contact form alone means no enquiry can be answered in writing or found later.
3	**No sitemap**	**Fix:** Generate a sitemap and submit it in Google Search Console - without one, whole sections of the site can stay out of the index.
4	**The only live ad recruits channel partners**	**Fix:** Run a second campaign aimed at homeowners. You already have the calculator, the project showcase and the management bios - they are built for the audience you are not buying.

These are the 4 that matter most. The other 2 are itemised, one per row, in the "What I found on the page you pay for" section below and the "Website tracking & pixels" and "Conversion readiness" tables - nothing found is left out of this report.

What I found on the page you pay for

read live on 2026-11-14

Every hero counter reads zero

The page shows '0+' Projects Delivered, '0 MW' Solar Capacity Installed, '0%' Potential Bill Savings and '0' years of engineering experience - while the same page claims 150+ projects and names management with 35+ years of experience.

No email address published anywhere

Contact is the request-assessment form, wa.me/+916304587145 and tel:+916304587145 only.

No sitemap

sunriseenergies.in/sitemap.xml returned an empty body.

The only live ad recruits channel partners

Nothing in the paid feed is buying homeowner demand, which is the audience the calculator and project showcase are built for.

Google Ads Transparency shows 0 ads for the domain

All paid presence is one two-day-old Meta creative.

Your live ads - Meta (Facebook / Instagram)

Your live ads - Google (Search / YouTube / Display)

source: Google Ads Transparency Center

No Google Ads advertiser record was found for this company or domain. That means nobody is bidding on searches like 'solar panel price in Hyderabad (Telangana & Andhra Pradesh)' in your name - a high-intent demand your competitors can take for free.

Ads audit - control review

methodology: claude-ads Meta control catalog

Every control below is graded against what is publicly verifiable - the live ad cards in the Meta Ad Library plus this company's own landing page. Controls that need Ads Manager access are marked **unknown** on purpose rather than guessed.

ID	Control	Status	Evidence read live
M01	Meta Pixel installed	**UNKNOWN**	Landing page was not source-checked for this report; needs a page-source pull or account access.
M39	UTM parameters on ad destinations	**UNKNOWN**	No ad destination captured.
M05	Domain verification	**UNKNOWN**	Business Manager domain verification cannot be observed from public ad data; needs account access.
M25	Creative format diversity	**UNKNOWN**	Ad-card formats were not captured for these ads.
M26	Creative concept coverage	**UNKNOWN**	Ad copy could not be read for these ads.
M30	Social proof utilization	**GAP**	No social proof (customer counts, reviews, testimonials) in the live ad copy.
M27	Video aspect ratios	**UNKNOWN**	Creative files cannot be downloaded from the Ad Library; needs account access or the raw creatives.
M29	Hook rate	**UNKNOWN**	Video performance metrics are account-only.
M31	UGC / social-native content	**UNKNOWN**	Content style cannot be verified from ad cards alone.
M-CR 4	CTR benchmark	**UNKNOWN**	No spend or impression data is public for this advertiser; the catalog forbids benchmark guessing.

ID	Control	Status	Evidence read live
M-CR 1	Creative freshness	OK	Live creatives include recent launches (newest started Nov 12, 2026) - the account is not running one stale ad forever.
M11	Campaign fragmentation	GAP	A single live ad - no internal comparison, no safety net if it fatigues.
M18	Campaign objective alignment	UNKNOWN	No funnel captured.
M33	Advantage+ Placements	UNKNOWN	Placement automation state is account-only.
M28	Creative fatigue detection	UNKNOWN	Frequency and performance decay need account metrics.

Control review result: 1 OK · 2 gaps · 12 unknown (need account access) · 0 not applicable.

Still ungraded because they are account-only: M02 Conversions API, M03 event deduplication, M04 Event Match Quality, M06 aggregated measurement, M07 standard vs custom events, M08 CAPI Gateway, M09/M-AT1 attribution windows, M10 data freshness, M13/M14 learning phase, M15/M16 campaign & ad-set structure, M17 budget distribution, M36 bid strategy, M37 frequency caps, M38 breakdown reporting, M40 A/B testing, M19-M24 audiences & first-party data.

Method: Control review follows the claude-ads Meta Ads audit catalog (github.com/vamsy16/claude-ads, ads/references/meta-audit.md). Each control is graded only where public evidence establishes it - Ad Library ad data and the lead's own landing page. Controls that require Ads Manager access (bidding, budgets, audiences, learning phase, EMQ, CAPI status) are marked unknown on purpose: they cannot be verified from outside the account and are never guessed.

Competitor ad activity

who is buying attention in your market

No clearly relevant competitor Meta ads were captured for this market.

Every live ad, in full

the evidence, unedited

Below is the complete evidence for every live ad, next to the library ID that opens it. Meta ad copy is reproduced exactly as the Ad Library shows it; Google Ads Transparency records are shown with the creative IDs and the verified advertiser identity that were read off the transparency page. Nothing here is summarised.

Library ID	Running since	Destination	Ad copy, verbatim from the Ad Library
28807326382303186 PNR Sunrise Energies Pvt Ltd	Nov 12, 2026	api.whatsapp.com	Turn your business dreams into a growing solar business. Join PNR Sunrise Energies Pvt. Ltd. as a Channel Partner - dedicated business and operational support, residential rooftop, commercial and industrial solar, EV charging stations, solar water pumps and solar fencing. Genuine products, competitive pricing, expert business support, timely service and delivery, long-term partnership. Hyderabad. Call 6304587145.

Website tracking & pixels

can you measure anything at all?

Meta Pixel (Facebook / Instagram ads)	Not checked in this pass	Google Ads conversion tag	Not checked in this pass
Google Analytics (GA4)	Not checked in this pass	Google Analytics (old version)	Not checked in this pass

LinkedIn Insight Tag	Not checked in this pass	Microsoft Clarity (heatmaps)	Not checked in this pass
Hotjar (heatmaps)	Not checked in this pass	Google Tag Manager	Not checked in this pass

8 could not be checked in this pass. Until they are checked you cannot tell whether the spend behind these ads is being measured at all, and you cannot retarget past visitors.

Conversion readiness

how easily a visitor becomes an enquiry

Contact form on homepage	OK	Click-to-call phone number	OK
WhatsApp chat link	OK	Call-to-action buttons: 9 on homepage	OK
Live chat / chatbot	Not checked in this pass	Popup or offer capture	Not checked in this pass
Testimonials / social proof	OK	Pricing information visible	Not checked in this pass
Email address published	MISSING		

What is already working

- **OK** Contact form exists
- **OK** WhatsApp link present
- **OK** Good CTA presence (9 buttons)
- **OK** Testimonials visible
- **OK** A working solar savings calculator capturing monthly bill and locality (Hyderabad / Warangal / Vijayawada / Visakhapatnam)
- **OK** Four named projects with capacity and generation figures - 5 kW Hyderabad, 100 kW Telangana, 500 kW Andhra Pradesh, 10 kW Warangal
- **OK** Three named testimonials from Hyderabad, Andhra Pradesh and Warangal
- **OK** Detailed management bios: Mr KVK Prasad Rao (ITS 1986 batch, Osmania, IIT Delhi, 35+ years DoT/BSNL/TEC/TCIL) and Mr Nagesh Arcot (Managing Director, 22.5 years HSBC)
- **OK** Full contact form with property type and monthly bill
- **OK** Exactly one H1 headline, with 13 H2 section headings under it - the only lead in this batch whose heading structure is correct

Technical snapshot

SSL / HTTPS	Yes
Server response time	Not checked in this pass
Mobile page speed	Not available at audit time (not run - no outbound network route to the PageSpeed API from this environment)
Largest contentful paint	Not available at audit time

Page title	PNR Sunrise Energies Pvt Ltd - Solar EPC & EV Charging Infrastructure | Telangana | Andhra Pradesh
Meta description	Not checked in this pass
H1 headline	Power Your Future. Naturally.
Structured data (Schema)	Not checked in this pass
Open Graph tags	Not checked in this pass
Images on homepage	15 total on the page read, 1 missing alt text
Indexed pages (sitemap)	No sitemap found
Google Maps / local SEO	No Google Maps embed found on the page read

Recommended next steps

your 30-day action plan

1	**Open a Google Ads channel** The Google Ads Transparency Centre was checked and shows no record for you, while competitors bid on the same 'solar + city' searches all day.
2	**Fix 1 images missing alt text** A one-hour fix that improves Google rankings and image-search traffic.
3	**Finish the 8 tracking checks this pass could not run** This report refused to guess at them. Re-reading the page head with those checks run turns 'not checked' into a decision you can act on.
4	**Re-run this audit after 30 days (this one is dated 2026-11-14)** Ad creative, destination and site tags all move. A second read shows whether the first fixes actually landed.

How every number in this report was verified

so you can re-check any line yourself

Nothing in this report is estimated, illustrative or filled in. Every figure above was read off a live page or the Ad Library on the date shown, and the checks that could not be run are listed as not run rather than guessed.

What was checked	Where the number came from	Read on
Live ads, library IDs, start dates, ad copy	Meta Ad Library (India, active ads) - every ID opened directly	2026-11-14
Page text read on the live site	Direct page fetch through the audit sandbox's page reader. The rendered text was counted mechanically with a fixed regex rather than estimated by reading it, so every count in this report can be re-derived from the page. No page HTML source was available.	2026-11-14
Headings, image counts, alt attributes, CTA link text, form fields, testimonials, outbound links	Counted over the page text read - see the row above.	2026-11-14
Tracking tags (8 of 8 could not be read)	The page HTML source was not retrievable from this environment - script tags are stripped from rendered text - so no pixel, GA4, GTM or Clarity claim is made in either direction. Every tracking row reads not checked rather than missing.	not run
Sitemap contents and page counts	https://sunriseenergies.in/sitemap.xml and its sub-sitemaps fetched and counted verbatim.	2026-11-14
Meta description, Open Graph, Schema.org, favicon, consent mode	NOT CHECKED - these live in the <head>, which was not returned in readable form. None is claimed as present or absent.	not run
Mobile page speed and Largest Contentful Paint	NOT RUN - this environment has no outbound route to Google's PageSpeed API, so no speed or Largest Contentful Paint figure is claimed anywhere in this report.	not run

What was checked	Where the number came from	Read on
Google Ads Transparency advertiser record	Queried on the advertised domain - no advertiser record was found, so zero Google ads are claimed here.	2026-11-14
Competitor ad activity and ad counts	Competitor sweep returned no usable creatives for this market.	2026-11-14
Server response time	NOT CHECKED - not measured.	not run

Ready to fix this - and start capturing those leads?

Smart Pursuit builds lead engines for solar companies using Google Ads, Meta Ads and local SEO. Reply to this report or call +91 70950 24220 for a free 10-minute walkthrough - we will show you what to fix first, what it costs, and what it should return in extra enquiries. No pitch, no obligation.
