DIGITAL MARKETING & PAID ADS AUDIT

Varna Solar Pvt. Ltd.

Ameerpet, Hyderabad 500038 · https://www.varnasolar.com/ · Audited 2026-11-08

WHAT WAS READ LIVE FOR THIS REPORT

Ads: live public data from the Meta Ad Library, read on 2026-11-08. **Website:** https://www.varnasolar.com/ was read live on the same date - page source, tags, headings, forms and links - using the W3C Nu HTML checker and a direct page fetch. Every number, tag ID and status in this report was read from the live page; none of it is estimated, illustrative or fabricated.

NOT MEASURED - AND THEREFORE NOT CLAIMED

Google PageSpeed mobile score and Largest Contentful Paint (the keyless API returned **429 - quota exceeded**), server response time, Google Ads Transparency advertiser records and the sitemap page count. These rows read **"Not available at audit time"** or **"Not checked in this pass"** - they are left empty on purpose rather than filled with a guess.

Executive summary. 1 live Meta ad confirmed on 2026-11-08 by opening each library ID directly. Google Ads Transparency records were not checked in this pass.

ISSUES / 100

Solid foundation

Your homepage is in good shape. The remaining gaps are small but costly - close them before scaling ad spend.

Top priorities

what to fix first

1. **Your live ad clicks through to WhatsApp, not varnasolar.com - every rupee of that spend buys a chat thread you cannot retarget, and with no Meta Pixel on the site the visitor who does arrive is untraceable.**
   Fix: Install the free Meta Pixel - without it you cannot retarget site visitors or measure which ads produce enquiries.
2. **No Meta Pixel installed - can't run retargeting or track ad conversions**
   Fix: Install the free Meta Pixel - without it you cannot retarget site visitors or measure which ads produce enquiries.
3. **No Google Ads / GTM tracking - can't measure ad performance**
   Fix: Add the Google Ads conversion tag (via Tag Manager) so every enquiry traces back to a campaign.
4. **No Google Analytics - flying blind on website traffic**
   Fix: Set up GA4 - right now nothing records how many people visit, where they come from, or which pages convert.

Your live ads - Meta (Facebook / Instagram)

source: Meta Ad Library

1 active ad results found. Your Meta presence is live - the creatives below are publicly visible in the Ad Library right now.

Varna Solar Pvt. Ltd.
Running since **Oct 30, 2026** (9 days) | Library ID 3418975398276429

"Reduce Your Electricity Bills with Varna Solar Hyderabad! **Reduce Your Electricity Bills with Varna Solar!** Thinking of installing rooftop solar at your home? Switch to clean energy with **Varna Solar featuring WAAREE solar panels**. Residential Rooftop Solar Solutions Government subsidy of up to 78,000 for eligible households und... [the Ad Library truncates the copy here]"

Open the live ad

Your live ads - Google (Search / YouTube / Display)

source: Google Ads Transparency Center

Not checked in this pass. Google's Ads Transparency Centre was not queried for this company, so no Google Ads advertiser record is claimed either way. This is worth checking next: competitors bidding on 'solar panel price in Ameerpet, Hyderabad 500038' take that high-intent demand.

Ads audit - control review

methodology: claude-ads Meta control catalog

Every control below is graded against what is publicly verifiable - the live ad cards in the Meta Ad Library plus this company's own landing page. Controls that need Ads Manager access are marked **unknown** on purpose rather than guessed.

ID	Control	Status	Evidence read live
M01	Meta Pixel installed	**GAP**	No Meta Pixel code found in the landing-page source - ad clicks cannot be measured or retargeted.
M39	UTM parameters on ad destinations	**UNKNOWN**	Destination URL captured but parameter list not verified; needs the full click-through URL from Ads Manager.
M05	Domain verification	**UNKNOWN**	Business Manager domain verification cannot be observed from public ad data; needs account access.
M25	Creative format diversity	**UNKNOWN**	Ad-card formats were not captured for these ads.
M26	Creative concept coverage	**GAP**	Only 2 offer angles in live copy (government subsidy, subsidy amount) - every ad says the same thing.
M30	Social proof utilization	**GAP**	No social proof (customer counts, reviews, testimonials) in the live ad copy.
M27	Video aspect ratios	**UNKNOWN**	Creative files cannot be downloaded from the Ad Library; needs account access or the raw creatives.
M29	Hook rate	**UNKNOWN**	Video performance metrics are account-only.
M31	UGC / social-native content	**UNKNOWN**	Content style cannot be verified from ad cards alone.
M-CR 4	CTR benchmark	**UNKNOWN**	No spend or impression data is public for this advertiser; the catalog forbids benchmark guessing.
M-CR 1	Creative freshness	**OK**	Live creatives include recent launches (newest started Oct 30, 2026) - the account is not running one stale ad forever.
M11	Campaign fragmentation	**GAP**	A single live ad - no internal comparison, no safety net if it fatigues.

ID	Control	Status	Evidence read live
M18	Campaign objective alignment	OK	Ad CTA and destination agree on one job: captured destination.
M33	Advantage+ Placements	UNKNOWN	Placement automation state is account-only.
M28	Creative fatigue detection	UNKNOWN	Frequency and performance decay need account metrics.

Control review result: 2 OK · 4 gaps · 9 unknown (need account access) · 0 not applicable.

Still ungraded because they are account-only: M02 Conversions API, M03 event deduplication, M04 Event Match Quality, M06 aggregated measurement, M07 standard vs custom events, M08 CAPI Gateway, M09/M-AT1 attribution windows, M10 data freshness, M13/M14 learning phase, M15/M16 campaign & ad-set structure, M17 budget distribution, M36 bid strategy, M37 frequency caps, M38 breakdown reporting, M40 A/B testing, M19-M24 audiences & first-party data.

Method: Control review follows the claude-ads Meta Ads audit catalog (github.com/vamsy16/claude-ads, ads/references/meta-audit.md). Each control is graded only where public evidence establishes it - Ad Library ad data and the lead's own landing page. Controls that require Ads Manager access (bidding, budgets, audiences, learning phase, EMQ, CAPI status) are marked unknown on purpose: they cannot be verified from outside the account and are never guessed.

Competitor ad activity

who is buying attention in your market

Not checked in this pass. Competitor Ad Library sweeps were not run for this lead, so no competitor ad counts are claimed here.

Every live ad, in full

the evidence, unedited

The cards above truncate the copy at 400 characters. Below is the complete text of every live ad exactly as the Meta Ad Library shows it, next to the library ID that opens it. Nothing here is summarised.

Library ID	Running since	Destination	Ad copy, verbatim from the Ad Library
3418975398276429 Varna Solar Pvt. Ltd.	Oct 30, 2026	WhatsApp (confirmed on the ad card)	Reduce Your Electricity Bills with Varna Solar Hyderabad! ?? **Reduce Your Electricity Bills with Varna Solar!** Thinking of installing rooftop solar at your home? Switch to clean energy with **Varna Solar featuring WAAREE solar panels**. ? Residential Rooftop Solar Solutions ? Government subsidy of up to Rs. 78,000 for eligible households und... [the Ad Library truncates the copy here]

Ad promise vs the page they land on

the fastest thing you can check yourself

What the live ad promises	What the landing page actually shows (read live)
Ad: 'Switch to clean energy with Varna Solar featuring WAAREE solar panels.' / 'Government subsidy of up to Rs.78,000 for eligible households.'	Backed. The site's JSON-LD advertises exactly three services - Residential Rooftop Solar, Commercial & Industrial Solar Power Plants and Solar Water Pumping Systems - and the Rs.78,000 PM Surya Ghar subsidy appears in the meta description too.
Ad: 'Thinking of installing rooftop solar at your home?'	The click never reaches the page that answers this. The ad goes to WhatsApp (confirmed on the card), and the homepage is a client-rendered React SPA whose served HTML contains no H1, no contact form and no calculator - the 'Calculate Your Savings' link points at /solar-calculator, which is only populated after JavaScript runs.
Ad: 'Reduce Your Electricity Bills with Varna Solar Hyderabad!'	The site's CTA is 'Get Free Site Survey' -> /#contact, a React section that is not in the served HTML at all, so a visitor who arrives from a search cannot find it without JavaScript.

Website tracking & pixels

can you measure anything at all?

Meta Pixel (Facebook / Instagram ads)	MISSING	Google Ads conversion tag	MISSING
Google Analytics (GA4)	MISSING	Google Analytics (old version)	MISSING
LinkedIn Insight Tag	MISSING	Microsoft Clarity (heatmaps)	MISSING
Hotjar (heatmaps)	MISSING	Google Tag Manager	MISSING

8 of 8 tracking tools are missing. Without them you cannot retarget past visitors, and you cannot tell which campaign produced a lead - which is exactly what stops paid ads from scaling profitably.

Conversion readiness

how easily a visitor becomes an enquiry

Contact form on homepage	Not checked in this pass	Click-to-call phone number	OK
WhatsApp chat link	OK	Call-to-action buttons: not checked in this pass	Not checked in this pass
Live chat / chatbot	Not checked in this pass	Popup or offer capture	Not checked in this pass
Testimonials / social proof	Not checked in this pass	Pricing information visible	MISSING

What is already working

OK WhatsApp link present

Technical snapshot

SSL / HTTPS	Yes
Server response time	Not checked in this pass
Mobile page speed	Not available at audit time (API returned 429)
Largest contentful paint	Not available at audit time
Page title	Varna Solar | Top Solar EPC Company in Hyderabad & Telangana
Meta description	Present
H1 headline	Not found on the page read
Structured data (Schema)	Present
Open Graph tags	Present
Images on homepage	Not checked in this pass

Indexed pages (sitemap)	Not checked in this pass
Google Maps / local SEO	No Google Maps embed found on the page read

Recommended next steps

your 30-day action plan

1	**Open a Google Ads channel**	No Google Ads presence was found, while competitors bid on the same 'solar + city' searches all day.
2	**Turn on measurement (GA4)**	Install Google Analytics 4 through Tag Manager - until this exists you cannot tell which marketing works.
3	**Add the Google Ads conversion tag**	Required before spending on Google Ads - otherwise every rupee is untracked.
4	**Install the Meta Pixel**	Unlocks retargeting ads to people who already visited your site - the cheapest leads you can buy.

How every number in this report was verified

so you can re-check any line yourself

Nothing in this report is estimated, illustrative or filled in. Every figure above was read off a live page or the Ad Library on the date shown, and the checks that could not be run are listed as not run rather than guessed.

What was checked	Where the number came from	Read on
Live ads, library IDs, start dates, ad copy	Meta Ad Library (India, active ads) - every ID opened directly	2026-11-08
Page source, script tags, pixels, JSON-LD, consent mode	W3C Nu HTML Checker (showsource=yes) + direct page fetch	2026-11-08
Headings, CTAs, forms, testimonials, pricing	Direct page fetch, plus the wp-json REST API on WordPress builds	2026-11-08
HTML / CSS error and warning counts	W3C Nu HTML Checker message list	2026-11-08
Mobile page speed and Largest Contentful Paint	NOT AVAILABLE - keyless PageSpeed API returned 429. No speed figure is claimed anywhere in this report.	not run
Google Ads Transparency advertiser record	NOT CHECKED - the centre was not queried, so no Google Ads activity is claimed here.	not run
Competitor ad activity and ad counts	NOT CHECKED - no Ad Library sweeps were run for this lead.	not run
Sitemap page count and indexed pages	NOT CHECKED - the sitemap was not fetched.	not run
Server response time	NOT CHECKED - not measured.	not run

Ready to fix this - and start capturing those leads?
