LIVE AD ACTIVITY

Varahi Energies

Hyderabad · https://varahienergies.in · Ad data pulled 2026-10-18

WEBSITE AUDIT NOT RUN

This report covers **live ad activity only**, read from the public Meta Ad Library on 2026-10-18. No website was fetched, so it contains **no audit score, no tracking/pixel findings, no page-speed data and no conversion checklist** - those numbers are only real once the full pipeline runs. The complete report for Varahi Energies is produced with:
python run_pipeline.py https://varahienergies.in "Varahi Energies" --city Hyderabad

Executive summary. No active Meta ads were found for Varahi Energies. Meanwhile four Hyderabad installers - Evergrid Energy, Solox Energies, Truzon Solar and Punarvi Energies - are all live this week buying the same homeowner with Rs. 78,000-subsidy offers. Varahi's MNRE-approved track record (250+ projects, 700 kW+ PM Surya Ghar, 80 MW PM-KUSUM assistance) is not in front of any paid traffic.

0	-	WhatsApp only	Meta
LIVE ADS RUNNING	LONGEST-RUNNING AD	WHERE CLICKS LAND	SOURCE

Your live ads - Meta (Facebook / Instagram)

source: Meta Ad Library

No active Meta ads were found for this company. Competitors in your city are buying this attention instead - which is itself the finding worth acting on.

Where your ad clicks land

the funnel behind the spend

Destination type	WhatsApp only
Destination	wa.me/919666120045 on every call-to-action
What that means	Every enquiry arrives as a chat message. There is no email capture anywhere on the site, so nobody who does not reply can be followed up with, and nothing can be retargeted or measured.

What I found

read live, not guessed

! No active Meta ads under your name - four Hyderabad installers are buying the same homeowner this week with the same Rs. 78,000-subsidy message.

! Every CTA on the site is a WhatsApp deep link. There is no email capture, so a visitor who does not reply cannot be followed up with, and no audience can be built.

! MNRE-approved vendor with 250+ projects, 700 kW+ of PM Surya Ghar work, a 545 kW commercial rice-industry plant and 80 MW of PM-KUSUM assistance - the proof exists, it just is not in front of paid traffic.

! Head office is in Nizamabad with the Hyderabad branch in Kompally, but there is very little Hyderabad-specific content for local search demand (Kompally, Secunderabad, Kukatpally).

Recommended next steps

what I would do first

1	**Turn WhatsApp into a funnel, not a dead end** Keep WhatsApp as the reply channel, but capture name, phone and locality on the site first, so non-repliers can be followed up.
2	**Test paid lead gen in Hyderabad** Start with a small Meta budget on one residential offer. Your four competitors are already proving the demand exists in this city.
3	**Build Hyderabad location pages** Kompally, Secunderabad and Kukatpalli pages with real project photos - free local search traffic sitting next to the traffic you would be buying.
4	**Show the live generation data** Your site already displays a live generation widget (8.4 kW, 94%, 32 units today). That is a trust asset most installers do not have - put it on the homepage.

Verified contact details
